The N. E. Monsoon continues with occasional exceptions till the middle of the month, after which calm and S. E. winds are frequently proved. In the forenoon it is usually calm until about 11 A. M. when a gentle sea breeze sets in which blows till sunset. During the whole of this month the weather is without exception always beautifully clear and pleasant, and it is generally considered to be the most healthy period of the year; there are no more than one day of haze and one of clouds. Rain or lightning does not occur once in seven years.

The hottest time of the day is at 3 P. M.; the coldest at 11 A. M.

Throughout this month the South or S.W. wind with very unequal force prevails: it is accompanied with a passing darkness and calmness, which renders the effects highly prejudicial to health and comfort. On this account the sea breeze which sets in at noon, and blows till sunset, is less violent than at other seasons: the sky is, however, usually clear the whole of every day, the sun shining for many days. Dew lies frequently on the ground, and is less in quantity than last month. Rain and lightning are little known.

The hottest time of the day is at 4h. P.M. 7. M.; the coldest at 4h. A.M.

The lowest wind, which is mentioned as prevailing in the two last columns, commences in the middle of this month, and continues by a land wind from the W. or S.W. In this interval gales of wind at various distances have occasionally been experienced, commencing their career generally at the N. W. and reaching to every point of the compass. About the 15th the variable land or hot winds set in, which are considered in their effect towards the end of the month by occasional showers. The sea breeze sets in about noon and lasts till 5 or 10 P.M. There are about thirteen days of clear weather, eight of drying winds and haze, and four cloudy days, on five or six of which there is rain. The dew is almost imperceptible, and is confined with variable excess about four times.

The hottest time of the day is at 11 A.M. and the coldest at 4 P.M. A.M.

The regular westerly winds which terminate about the middle of this month are succeeded by winds of a light and variable nature, mostly from the West and South. Calms, haze and rain occur in about the same proportions as last month, lasting about eight days of clear weather. Lightning attended by thunder is very frequent, but thus accompanied it occurs only once or twice. The sun becomes extremely small, the same diameter as that experienced last month, commencing at 1 or 2 P.M., and continues till 6 or 10 P.M. Day is sometimes obscured, but more frequently fails.

The hottest time of the day is at 2½ P.M., the coldest at 2½ A.M.

Throughout the month light and variable winds with occasional calms continue, and with the exception that the weather is not quite so much clouded, the remarks of last month apply with equal propriety to this. Lightning occurs almost every evening, but accompanied by thunder three times only. The sea becomes calm in about 2 or 3 P. M. and moves ON E or S E N. E., but occasionally falls for several days together. Dews are common, but small in quantity.

The hottest time of the day is at 3 P. M.; the coldest at 4 A. M.

The clouds now begin to assume a more dense appearance than hitherto. Cold winds and rains are very frequent till the 12th, when the N. E. monsoon, or rather an S. W. breeze, sets in. From this time till the end of the month the atmosphere assumes a very turbid appearance; extremely heavy rains with storms of wind, thunder and lightning, incessantly occur, and gales of wind of a similar nature to those which occur in the latter part of the year are sometimes experienced. On these occasions a depression of the barometer of 4 or 5 points of an inch is observed. The rain, however, or rather a jet combination of the N. E. wind, is quenched towards the middle of the day.

The hottest time of the day is at 2½. P. M.; the coldest at 4½. A. M.

* See Remarks for the month of May.

† On the 25th October 1890, during the hurricane which then raged, the barometer fell to 29.555 inches.

The H. E. Monsoon continues with unaltered force, and the state of the weather generally is much the same as that experienced towards the end of last month, save an increased frequency of the almost daily frequent occurrence of lightning. The number of clear and cloudy days in this, as well as in last month, is liable to great uncertainty.

The barometer relative to the sea level of last month apply equally to this.

The hottest time of the day is at 6h. 30m. P. M.; the coldest at 6h. 00m. A. M.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month and arrive at their close about the 15th. From this time the day assumes an appearance of tranquillity and duration which forms a strong contrast with the disturbed state of the preceding month; the E. N. wind, however, continues throughout the month without interruption. There are about fifteen clear days, almost always and even of flying clouds and haze; of these there are six days on which rain falls. The morning exhibits a copious deposition of dew, and sometimes a ground fog which does not reach more than two or three feet above the surface. The sun shines out at 10 A. M., and moves off at 4 P. M.

The hottest time of the day is at 2h. 30m. P. M.; the coldest at 2h. 30m. A. M.

THE SOLAR SYSTEM.

The Sun is the source of light and heat to our system. Its true diameter is upwards of 887,000 miles; its bulk is 1,384,000 times greater than the Earth. It revolves on its axis in about 25 days, 7 hours, 46 minutes.

Mercury is the nearest planet to the Sun, being about 35,880,000 miles from it. It performs its revolution round the Sun in 87 days, 23 hours, which is the length of its year. The diameter of Mercury is about 2,980 miles; its bulk 1-16th of the Earth.

Venus.—Distance from the Sun 68,000,000 miles; the length of its year is 224 days, 16 hours; the rotation on its axis is 23 hours, 21 minutes. Its diameter is about 7,800 miles; its bulk is about 8-10ths that of the Earth.

The Earth is also one of the planets that revolve about the Sun. Its mean distance is about 94,000,000 miles, and its diameter about 7,912 miles.

Mars.—Distance from the Sun 142,206,000 miles; the length of its year is 686 days, 23½ hours; its true diameter is about 4,800 miles, which is rather more than half the diameter of the Earth.

Jupiter.—Mean distance from the Sun is about 395,890,000 miles; length of its year 1,285 days 17 hours. The comparative insignificant dimensions of Venus, as well as that of the three following planets, render them invisible, except through telescopes of considerable power.—**Juno.**—Mean distance from the Sun about 384,430,000 miles; length of its year 1,091 days.—**Ceres.**—Mean distance from the Sun about 268,740,000 miles; length of year 1,664 days.—**Asterois** is 2,864,000,000 miles from the Sun, and performs its revolution in 600,000 days; its diameter is about 28,000 miles.—**Pallas.**—Mean distance from the Sun about 264,400,000 miles; length of year 1,668 days.

Jupiter.—Mean distance from the Sun 465,917,000 miles; performs its revolution in 4,334 days 16 hours; its true diameter is 86,000 miles, and bulk is 1,861 times that of the Earth. Jupiter has four satellites or moons.

Saturn.—Distance from the Sun is about 909,000,000 miles; the length of its year is 10,755 days; its true diameter is 73,000 miles; its bulk is 905 times that of the Earth. Saturn has seven satellites, and is also surrounded with a double ring.

Uranus.—Mean distance from the Sun is about 1,839,000,000 miles; it performs its revolution in about 84 years. This planet has six satellites.

THE EARTH'S HEAT.—Experiments by Professor Smith at Edinburgh, with thermometers imbedded in the earth at varying depths, showed a gradually increasing heat of one degree Fahrenheit for every forty feet of depth; so that at two and a half miles water would boil, and at one hundred miles deep all things must be in a state of fusion.

FIXED STARS.—Within 30 degrees of each side of the equator, 8,800,000 fixed stars are found.

THE MILKY WAY.—Sir William Herschel supposes that eighteen millions of stars might be seen with a fifty feet reflector in the "milky way" alone.

LIGHT OF THE SUN AND THE MOON.—The splendour of the Solar Light is more than 800,000 times that of the Full Moon; in other words, if the luminous were paved with 800,000 full moons, their united splendour would be inferior to that of the sun.

A COMET.—There is a comet that requires 575 years in which to make its revolution round the sun. Its last appearance was in 1680. What an idea does this give us of the vastness of the Creator's work.

CLOUDS.—Against much rain, the clouds grow bigger, and increase very fast, especially before thunder. When the clouds are turned like flocks, but denser in the middle and bright towards the edges, with sky bright, they are signs of a frost, with hail snow, or rain. If clouds form high in the air, in thin white trains like locks of wool, they portend wind, and probably rain. When a general cloudiness covers the sky, and small black fragments of clouds fly underneath, they are a sure sign of rain, and probably it will be lasting. Two currents of clouds always portend rain, and, in the summer, thunder.

MOONLIGHT NIGHTS.—At 4 days old the moon shines till about 10 at night, at 5 days till 11, at 6 days till 12, and 7 days till 1 in the morning; at 15 days (full moon), it rises 8 in the evening, at 16 days at a $\frac{1}{2}$ past 7; at 17 days at $\frac{1}{2}$ past 8; at 18 days, 10; at 19 days, 11; at 20 days, 12.

LENGTH OF THE YEAR.—The year is 365 days 6 hours long; so that in forming the Calendar with 365 days only, 6 hours are omitted. Consequently at the end of four years the Calendar would be 24 hours in error, which is made up by throwing an additional day into that year (the 29th February) which is termed "Leap Year."

LENGTH OF DAY AND NIGHT.—To ascertain the length of the day and night, at any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising, for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning, for the length of the night. These rules are equally true for apparent time.

CIVIL SERVICE REGULATIONS.

NEW RULES FOR THE GRANT OF LEAVE OF ABSENCE FOR REGULATING
DEDUCTIONS FROM SALARIES AND DEPUTATION ALLOWANCES,
AND FOR LIMITING THE PERIOD OF SERVICE OF CIVIL SERVANTS.

FORT ST. GEORGE, June 27, 1864.

The following Notification of the Government of India is re-published for general information.

FORT WILLIAM; FINANCIAL DEPARTMENT, the 24th June 1864.

The following Rules for the grant of Leave of Absence for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of Service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 24th August 1864.

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I. No Leave of Absence from any Office or Station can be granted, but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly through the regular channel in the Department to which the applicant may belong.

NOTE.—This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant Leave of Absence in Bengal.

Section II. The official allowance of the holder of a Civil Office quitting his station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III. No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificates, conforming in every respect to the directions contained in Section V.

CHAPTER II.

RULES FOR SUCH LEAVE.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificates to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the place to which he may resort.

Section V. When an application for Leave of Absence is made on the ground of ill-health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the illness, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or else-

where, as laid down in Section IV; and, in case of the applicant visiting the Presidency *provisory* to obtaining leave, the Certificate must be counter-signed by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the Applicant's Medical Attendant be of opinion that he ought to proceed to a Sanatorium or other place without visiting the Presidency, the Certificate must, in the first instance, be counter-signed by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the statement of the case for the consideration and counter-signature of the Members of the Medical Board.

The Certificate shall be given in the following form:—

I, A. B., Surgeon or of ——— do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is *essentially* necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper, according to the Certificate.)

The following form shall be observed by the Members of the Medical Board, or the Superintending Surgeon, in counter-signing the Surgeon's Certificate:—

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of ——— *absolutely necessary* (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant is in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension required; and such certificate must be counter-signed by the Members of the Medical Board, or by the Superintending Surgeon of the Division, in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it, to be stated, and the Certificate to be counter-signed by the Examining Physician of the East India Company if the applicant is in England, or if not in England, by the principal Medical authority of the Colony or the Country to which the applicant may have proceeded, or some sufficient reason stated for the want of such counter-signature if the Certificate be not so counter-signed. The Medical Board or Superintending Surgeon, before counter-signing a Certificate on above-mentioned must either personally examine the applicant or state some sufficient reason why they, or he, have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI. The following conditions will in future attach to Leaves of Absence granted to Civil Servants who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health:—

1st.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2nd.—The effect of the absence will be considered to be wasted if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanatorium within the Presidency, from the date of his arrival there to the date of his quitting the

Sanctions.—It is any place beyond the Presidency, but within the Continent of India, from the date of his leaving the frontier of his own Presidency, to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own Presidency to the date of his arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his station than the ports of his own Presidency.

Salary.—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rspees 10,000 (£1,000) per annum, during that period. In cases in which the emolument of the absentee's office does not exceed Rspees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rspees 5,000 (\$800) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

Atty.—For the interval elapsing between departure from Station to the commencement of reckoning absence or between the end of reckoning absence and re-arrival at Station, the absentee will be allowed a special leave for an additional period of one month, two months or three months according to the distance to be travelled as prescribed in Section XX of these Rules, and during this additional period, the absentee will be entitled to draw the same salary as is allowed by clause 3 of this Section.

If the leave on Medical Certificate be taken beyond Sea, Special Leave for the interval elapsing between departure from Station and the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last mentioned distances, on the condition that during this additional period, the Absentee shall be entitled to draw the same rates of Allowances as are granted by the

In the case of Government Servants, Clause 3 of Section VI. of the Absentee Rules for the Government Service.

In the case of Un Government Servants, Clause 3 of Section V. of the Absentee Rules for the Government Service.

Clause noted in the margin.
If the leave on Medical Certificate be taken in India, the Preparatory Leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanatorium.^a

Atty.—If the absentee shall apply, under Medical certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, and if shall appear to the Hon'ble the Court of Directors to be absolutely necessary, after examination by their Medical Officer in England, that he should do so, the leave which may have been granted in India will, under the orders of the Hon'ble Court, be extended to the limit of two years, with permission to retain office and half salary within the limits specified during such extension. If the absentee be in India, the leave may be extended to the limit specified, under the orders of the Government of India, or the Subsidiary Governments, upon the certificate of a Board of Medical Officers to be summoned to report on the state of the absentee's health.

Atty.—If the Absentee be compelled by the state of his health, under

^a G. T. 1905 June 1895, No. 25, Financial Department; and G. T. 1906 October 1906 No. 26, Financial Department.

Article VII *Medical Certificate*, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 4, he will, as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £800 per annum, if above ten years' standing at the time when the leave was granted, or of £500 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowances must cease until he reports his return to the Presidency.

Article VIII If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for Leave of Absence, the Government of India and the subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office and half his salary under the limits above enjoined.

Article VIII If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary: the Government of India and the subordinate Governments will, however, respectively exercise a discretionary power to grant, in such last mentioned case, a sick absentee allowance, not exceeding Rupees 5,000 or £800 per annum, for a further period not exceeding twelve months.

Article IX A Civil Servant who has taken Sick Leave under the Rules of the 17th May 1842, will not be debarred by that circumstance, from taking such leave again under the above Rules, with the privilege of retaining Office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of the 17th May 1842.

Article X None of the above-mentioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government be permitted to be absent, under Medical Certificate for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his office will be vacated.

Article XI Civil Servants who may desire to draw their allowances while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment.

CHAPTER III

Article XII The Government may grant to Civil Servants leave of absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the salaries and emoluments drawn by such servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule, until the completion of eleven months from the expiration of the last leave, if taken at one time; or from the date of return from any Sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two consecutive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months any, in like

however, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent from their Stations under Medical certificates cannot be admitted to leave under this Rule, in continuation of their Sick leave; and if, while absent under this Rule, they be granted extended leave under Medical certificates, they shall be considered liable to the Rules applicable to leave of absence on Medical certificates for the whole period of their absence.

Civil Servants, who have been absent on Medical certificates during any portion of a calendar year are not entitled to leave under this Rule during that year; nor can leave under this Rule be taken in connection with, or continuation of, leave granted under Section XIV Clause I.

Section XIII. As a general Rule, when leave is granted under Section XII, such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month, but as an exception to this Rule, it shall be discretionary with the several Local Governments, when good cause is shown for the indulgence and it is attended with no public inconvenience, to sanction leave of absence under this Rule to such parties as may not have occasion to apply for the whole at once in two instalments only, which are not to exceed in the aggregate one month within one calendar year.

Section XIV Clause 1.—The Government may, on sufficient cause being shown, grant to a Civil Servant special Leave of absence on private affairs for six months to any place in India, Europe or elsewhere, without any restriction whatever as to the places to which he may resort, provided however that the absentee shall draw no more than one-half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 2.—The leave granted under this Section, will be computed from the date of the absentee's quitting his station to the date of his return thereto, and if taken to Europe or beyond Indian Limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of his return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause 3.—It will be understood that leave under this Section, is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV

FURLOUGH ON PRIVATE AFFAIRS.

Section XV. In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive

periods of seven years' service or into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months, in order that the Government may make its arrangements accordingly. In case of a Furlough, into two periods, the first Furlough must be taken after a residence of not less than seven years, and the second Furlough after a further residence in India of seven years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVI. The Furlough Allowance granted during the period mentioned in the last Section, will be at the rate of £800 per annum, and the receipt of it will not, on any grounds whatever, be cancelled for any longer period than three years.

Section XVII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificates, before completing seven years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough allowance of £800 per annum for three years.

Section XVIII. Clause 2. In applying the foregoing Rules in relation to those before existing, periods of absence to the limit of three years, will count as service in India in the twenty-five years entitling to the seniority, the present qualification of twenty-two years' residence being retained.

Clause 11. Absence on Medical Certificates to the extent of one year will reckon as Service and residence in India, and be so computed in addition to the three years of absence which under the Clause now proposing are allowed to be reckoned as Indian Service. All periods of short leave of Absence on Private Affairs taken under Sections XII and XIV of these Rules will also count as service and residence.

Section XIX. Military Officers employed in the Civil Department, will be subject to the Rules laid down in General Orders No. 1180, dated 15th November 1884, for the grant of Leave of Absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V

RULES FOR JOINING STATIONS.

Section XX. There shall be allowed to Officers appointed to any new Office the periods of one month, two months, or three months for joining, according as the distance may not exceed 200 or 600 miles, or be in excess of the last-mentioned distances.

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed. Officers not joining their stations within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section XXI. Upon the first appointment of any Civil Servant, who shall be reported qualified for Public Service by the Examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses to the station, an allowance at the rate of 8 annas per mile, by the direct Post Road, according to the Polygraphical Table of the Post Office, the bill for which allowance will be passed by the Civil Auditor, after the Officer shall have joined the station; if required in advance, an order of the Government shall be necessary.

Section XXII. The salary of officers will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Associates will be payable from the date of their being reported qualified for the

Public Service, unless furnished under the preceding Rule, through duty in joining the Station to which they may be appointed.

Article XXIII. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX. regulating the time and distance for joining Station, shall be applicable and the Officer will, for the periods allowed in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Article XXIV. The sum of Company's Expense \$8,800 per annum having been fixed, under the orders of the Court of Directors, as the maximum salary of Civil Officers for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and company allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to Deputations as drawing only the allowances thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided however, that in the case of Civil Servants appointed to offices of the description referred to subsequent to the 2d June 1854, the sum of Expense \$9,000 shall be held to be the maximum salary, under the Government Regulation, No. 568, of that date.

Article XXV. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 80 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Substantive Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 80 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Expense 2,000 per annum, and in respect to all appointments of which the salary shall be more than Company's Expense 2,000 per annum, at the rate of 50 per cent. upon Company's Expense 2,000 and of 10 per cent. on the amount in which the monthly salary may exceed Company's Expense 2,000, provided however that no lower rate of Deputation Allowance shall be given than Expense 800 per annum.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places, where appointments are by clause, the grant of Deputation Allowance, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular class to which the appointment may belong.

A Civil Servant acting for another shall have no claim to Compensation or Pien, where any such source of emolument exist. There shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deduction.

A Civil Servant acting in an appointment the salary of which is to be subject on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary.

An Officer effecting a move from one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the Office.

An Officer appointed permanently to a higher station but prevented from passing his appointment by an order of Government and detained to officiate in a station of still higher emolument than the one to which he has been permanently appointed will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

Section XXVI. No Civil Servant temporarily effecting for another, shall draw an amount larger than the entire emoluments of the office in which he is effecting and if the amount of the Deputation Allowance according to the prescribed scale added to the permanent emoluments of the effecting Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments on being deputed to officiate for another shall be released only from one, he shall receive no Deputation Allowance unless the emoluments of the office in which he is deputed to act exceed the entire emoluments of his permanent appointment and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII. No Subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station shall be entitled to any Deputation Allowance until after the expiration of one month and then the allowance is not to be drawn in arrears. But a Servant previously out of employment or who may be deputed to act from a different station shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties in which he has been temporarily appointed.

Section XXVIII. Civil Servants if deputed to act at a distance from the Stations where they are employed or if ordered by Government on special duty shall be permitted to draw Travelling Allowance at the rate contained in the case of a first appointment.

CHAPTER VII

RULES FOR LEAVING THE PRISON OF SERVICE.

Section XXIX. After thirty five years service no Civil Servant shall be appointed to any new Office, nor be permitted to return on office which he has held for a period of five years and upwards except on special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 26th August 1854.

CHAPTER VIII

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO CIVIL OFFICERS.

Section XXX. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions pre-

enacted in the case of Civil Servants, both as respects the period of absence and the limitation of allowances during such absence. Leave will however, only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Low Officer shall quit his duty, even on leave under Medical Certificate, or on short Leave on Private Affairs, he will be considered to have vacated his appointment.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also privilege leave and leave for short periods on Private Affairs, and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs, in their case limited to the present term of three years. The Furlough may, however, either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1884, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or Leave of Absence, whether on Private Affairs or on Medical Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowances during such leave to any place out of India, they shall receive salary (but at a rate not exceeding \$500 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the Leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

**MODE OF SUBMITTING TO GOVERNMENT APPLICATIONS FOR LEAVE OF
ABSENCE UNDER THE NEW CIVIL ABSENCE RULES.**

No. 398.

PORT ST. GEORGE; FINANCIAL DEPARTMENT, the 25th March 1866.

NOTIFICATION.—Considerable inconvenience having been experienced from the present mode of submitting to Government applications from Civil Servants for leave of absence under the new Code of Civil Absence and Furlough Rules, the Right Honourable the Governor in Council resolves, in pursuance of the orders

noted in the margin, to direct that in future all such applications, as well

as references respecting their allowances and the interpretation of the Rules, be forwarded through the Civil Auditor, who will submit them to Government with his report.

3. In like manner all applications and references of a similar nature on the part of Officers in the Ecclesiastical Service or Military and Medical Officers in Civil employ, will for the future be submitted to Government through the Military Auditor General accompanied by his report.

2. Applications for leave of absence shall specify the particular Section of the Alameda Rules under which the indulgence is submitted and the date when in which the applicant purports to proceed—and when requested to pass through one or more superior authority they shall not be accompanied by a separate letter, but the original applications alone shall be forwarded to Government with the opinion or recommendation of each authority super-affixed thereto in the order of passage.

4. The Civil Auditor will see that applications from Civil Servants for leave of absence on account of sickness are supported by the required Medical Certificate duly countersigned—and that those for Furlough on private affairs are also accompanied by the prescribed Certificate, viz. that there are no public demands against the applicants—and that they will reserve an allowance from the Civil Fund. The Civil Auditor will further see in all cases in which it may be necessary, that the Secretary to be furnished by applicants for sick leave under Sec. XII of the new Alameda Rules provides also for the discharge of any demands that may eventually appear against them on the Books of the Presidency. The Civil Auditor will be careful that no avoidable delay occurs in reporting upon applications for leave of absence.

5 Civil Servants applying for permission to resign the Honorable Company's Service will invariably submit with their applications a Certificate from the Assistant General of there being no public demands against them.

BULLETIN OF THE GOVERNMENT OF INDIA ON CERTAIN POINTS CONNECTED WITH SECTION VI. OF THE NEW CIVIL SERVICE RULES

*Letter from Secretary to Government of India to Officiating Secretary to the Government of the North Western Provinces,
dated 24 October 1856, No. 4635*

Para. 2. "In reply to your first enquiry, whether an Officer taking his first leave to the Hills can get that leave extended to go to Europe, I am directed to state that the Right Hon. the Governor General in Council has been pleased to rule that an Officer taking Medical leave to a Sanatorium within the Presidency may get his leave extended to proceed to Europe but he will not be entitled to a fresh proprietary leave for reaching the port of embarkation, having once been allowed such leave to proceed from his station to the Sanatorium. The Medical leave is such leave must reduce from the date of arrival at the Sanatorium to the date of return to the Port of embarkation.

3 In regard to the 3d point, whether an Officer taking Medical leave to the Hills and being again (after signing his appointment) obliged to take Medical leave to Europe can do so, assuming 1 is appointment and half salary, or must on interval of 3 years elapse, His Lordship in Council does not think that the 3 years interval applies to leave of absence on Medical Certificate taken under the new rules. There is, His Lordship in Council observes, the 18 months leave that may be granted under Clause 1 of Section VI (capable of extension to 3 years under Clause 5 of the same Section) and the 6 months special leave that may be granted under Section VII, but as that is all that can be given without loss of appointment during full service in India, and as there is therefore no extension for an Officer to take leave if he can accept it the Right Honorable the Governor General in Council is of opinion that it is unnecessary to prescribe any fixed interval between Medical leave taken to the Hills and that taken to Europe under Sections VI and VII.

QUESTION CONNECTED WITH PRIVILEGE LEAVE UNDER THE CIVIL
ADMINISTRATIVE RULES

*Resolution of the Government of India in the Financial Department dated
20th September 1886 No 4308*

Para. 1 The Government of Fort St. George require of other when a Civil servant may have had occasion to take a short leave so as to break in on the 23 or 25 months of continuous service required to qualify for two and three months leave respectively under Section XII of the Civil Administrative Rules the whole remainder may still be taken and they recommend at the same time that Officers be allowed to avail themselves of leave in such portions as they may find convenient provided that the public service is not thereby damaged.

2 The Right Honorable the Governor General in Council is unable to sanction any deviation from the strict letter of the rule which does not allow of more than one month's privilege leave being taken in instalments.

NOTIFICATION.—Extract from a despatch from the Honorable the Court of Directors addressed to the Government of India, in the Financial Department, No. 40 of 1884, dated the 21st May:—

Para. 2. You will observe from para. 19 of our Despatch in this Department, dated 6th February 1886 No. 11, that Civil Servants must return to his duty at the expiration of his "privilege" leave to enable him to take his full leave.

his duty at the expiration of his "privilege" leave to enable him to take his full leave. The Government will therefore not be responsible till he shall have resumed his appointment.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of India on the Financial Department, No 11 of 1860 dated the 6th February —

Para. 18 We observe that the "privileges" have been granted to Mr. Money preparatory to his proceeding on Furlough; but "privileges" have ought only to be allowed when it is the intention of the Servant to return to his duty at the close of it. The object of the indulgence should be kept in view and the advantage of leave with full salary should be reserved for those Servants who having been at their stations for eleven or twelve months or (long or if the leave be accumulated)

(78) Mr. R. Money Officiating Judge of Moorshedabad not having been absent from his post for two years before the promulgation of the new Absentee Rules has been granted the benefit of accumulated privilege leave under Section XIII of the Rules on the ground that he served before as well as after the introduction of the new Rules intended towards qualifying for the privilege

and requires a little relaxation and after enjoying it returns to their duty. It is the Rule that if a Civil Servant whilst absent on privilege leave be granted extended leave under Medical Certificate he shall be considered liable to the Rules applicable to leave of absence on Medical Certificate for the whole period of his absence and we see no reason for maintaining a different practice when a Furlough on private affairs is taken in addition of privilege leave. In the latter case a merely early of salary should be drawn up to the date of the absence a quitting India on Furlough allowance

CONSTRUCTION OF THE NEW CIVIL ABSENTEE RULES

Fort St George August 10 1864

The following Extract from a Despatch from the Honble the Court of Directors addressed to the Government of India, on the 31st March Department, No 40 of 1865 dated the 2d May is published for general information —

Para. 9 Our despatch No 120 has already been passed on some of the points referred by the Government of Madras and we concur in your opinion to that Government as to the construction of the New Rules to the following effect.

We refer to them for the purpose of preventing any misunderstanding

1st. That a Civil Servant who has already done duty for a continuous period of 22 or 24 months without enjoyment of "privileges" leave may now obtain leave of that description for 3 or 5 months i.e., without waiting the expiration of 22 or 24 months from the date of the promulgation of the new Rules.

2d. That Military and Naval Officers in Civil employ shall be subject, in respect of "privileges" leave and short leave on private affairs, to the same rules as Officers holding Military and Naval Appointments; and that Chaplains shall be granted such leave on the same conditions as Military Officers. It is scarcely necessary to say that privileges leave, &c., will not be granted except by the authority and at the convenience of Government or of the Local Military or the sea may be

2d. That a Civil Servant who, on a *Junior* of less than 10 years' residence has taken sick leave to Europe in accordance with the provisions for those years on 1900 a year, after completing 10 years' residence in India.

4th. That a Civil Servant who has taken Sick leave under the Old Rules, is not affected by that circumstance from taking sick leave again under the New Rules. We have already provided, however, that the leave cannot be granted with the privilege of retaining office until a period of 3 years shall have elapsed from the servant's return from his former leave.

5th. That the new scale of Deputation Allowance be permitted to take effect from the 1st October 1904, the date of the promulgation of the New Rules, in respect of all existing appointments existing at that date.

APPLICATIONS FOR PREPARATORY LEAVE TO RECLARE THE OBJECT
CONTINGENT.

Fort St. George, October 5, 1904.

The following Notification of the Government of India is published for general information :—

FOREIGN DEPARTMENT, Calcutta, 24th September 1904.

The position, under which Officers, holding appointments directly under the Supreme Government, are entitled to obtain furlough on private affairs, or on Medical Certificates, or otherwise, from the Governments of Bombay and Madras without any reference to the object contemplated by them when applying to the Supreme Government for preparatory leave, having been found to be productive of considerable inconvenience, the Most Noble the Governor General is pleased to direct, that in future all Officers in the position described above, to whatever Presidency they may belong, shall, in making application for preparatory leave, declare from what part it is their intention to embark, and whether they desire to obtain a Furlough on private affairs, or on Medical Certificates, or with a view of ultimate retirement from the Service of Government. A copy of such application will be communicated in due course to the Local Government, in order to provide against any other furlough being granted other than that contemplated.

It is, in cases, in which Medical certificates may be produced, nothing with the urgent necessity of immediate consideration, the Local Government shall be at liberty to use its discretion in granting permission for such consideration. But the term, for which leave is taken, and the conditions on which it is taken, must be understood to rest ultimately with the Government of India, and shall not depend on the Local Government.

Secy. to the Govt. of India, with the Govt. Secy.

By order of the Governor in Council.

Secretary to Government.

AMOUNTS ALLOWANCES TO JUDGES CIVIL SERVANTS AND ADMINISTRATORS GENERAL.

7. Reading in our Despatch, dated 26th March 1854, No. 25, admitted Junior Civil Servants returning to Europe on sick certificates, to precisely the same advantages during absence as their seniors, who may have served for ten years and upwards, and having also availed the advantages which they did not before enjoy of taking furlough on private affairs after 30 years' residence, notwithstanding their previous absence, it is not our intention to continue the passage allowance of Rs. 5000 granted under the old Rules in such cases.

Forward letter from Messrs. W. J. Hay and G. J. Jenkins, two Junior members of the Civil Service, and submit for Court's orders the question, whether, in the event of Junior Civil Servants obtaining leave of absence on Medical Certificates under the new Rules, they are still entitled as under the old Rules, to the grant of Rs. 2,000 as passage money to Europe.

Letter from, dated 15th February 1855, No. 12. Forward in continuation of letter No. 10, dated 26th January, an application from Mr. G. J. Jenkins, requesting, in the event of the Court deciding to grant him passage money to Europe, that the same may be payable to him at the India House.

8. We have approved of the leave of absence to Europe which has lately been granted by the Local Government to Mr. Such, the Administrator General at Madras, and we sanction the application of Section 20 of the new Absentee Rules to the Administrator General at the three Presidencies.

PERIOD WITHIN WHICH SERVANTS PERMITTED TO PROCEED ON FURLOUGH SHALL VACATE THEIR SITUATIONS.

ORDER OF GOVERNMENT, dated 18th November 1855.

The Right Honourable the Governor in Council has been pleased to resolve, that all persons who may be permitted to proceed to Europe, with the benefit of the Absentee Allowance, shall vacate their situations, and avail themselves of the indulgence, within three months from the date on which it may be granted.

REGULATIONS REGARDING EXTENSION OF LEAVE UNDER THE AMOUNTS REGULATIONS OR ON SPECIAL LEAVE.

Extracts from a letter from the Honourable the Chief of Directors.

Para. 1. We have to request you that we have adopted the following Regulations, with respect to the grant of extension of leave to Members of the Indian Civil Establishments residing in this country under the Absentee Regulations, or on special leave of absence, viz.

That Civil Servants coming to England under the Absentee Regulations, or on special leave, shall immediately on their arrival report themselves with their address by letter to our Secretary, forwarding at the same time the certificate which they receive in India.

That in all cases of leave, Civil Servants be required to join the Establishment to which they belong at the expiration of the term for which leave may

have been granted, unless they shall have obtained an extension of it from six months before the expiration of the said leave.

That extensions of leave will not in future be granted by us except in cases of sickness certified to our satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

That when under any such circumstances a Civil Servant shall have obtained an extension of leave to a given period, he must at the expiration thereof apply for and obtain our permission, either to return to his duty, or to reside a further time in Europe, failing in which, he shall be liable to be struck off the List of Civil Servants.

That the Act of the 28th, Geo. 3d, Cap. 82, Sec. 70, as it respects Civil Servants applies only to cases of sickness, or inevitable accident or infirmity, and that no Civil Servant be hereafter considered eligible to return to the service after 5 years' absence, under that enactment, who has failed to obtain from us assent to the foregoing Regulations an extension of leave under the circumstances referred to in the Act.

2. We think that the foregoing Regulations be published for general information, and that each Civil Servant returning to his country under the Absence Regulations, or on special leave, be furnished with a copy for his guidance.

PORT ST. GEORGE, March 7, 1866.

The following Notification by the Most Noble the Governor General in Council is republished for general information:

No. 1070.

PORT WILLIAM; FOREIGN DEPARTMENT, (the 20th February 1866.

With reference to the Notification dated the 26th July 1864, No. 2800, "absolutely prohibiting the Officers of Government, of whatever rank or description, from selling or being concerned in the sale of property of any amount or description to Native Princes and Chiefs, or to their relatives or Ministers, or to any Native Gentlemen of rank or opulence residing under the protection of the British Government," the Governor General in Council is pleased to notify that the Notification in question was not intended to apply in its full extent to any but Political Officers, and Officers discharging Political as well as ordinary civil functions, whether employed directly under the Government of India, or under any of the Local Governments, and that in regard to all other Officers, the order of the 21st October 1861 is to be considered as still in force.

But His Lordship in Council is strongly impressed with a sense of the necessity for discouraging as much as possible pecuniary dealings of every description between Public Officers and Natives under their authority or residing within their jurisdiction, or in their vicinity, and the permission of Government will never be given to any transaction of the kind if it should appear to afford even a plausible ground for suspicion of improper motives on the part either of the buyer or the seller.

PRE-AUDIT OF BILLS ON ACCOUNT OF SALARIES IN THE CIVIL DEPARTMENT

NOTIFICATION

FOUR ST GEORGE'S CIVIL AUDITOR'S OFFICE 27th June 1880

1. In pursuance of the orders of Government in the Financial Department, No 288 dated the 24th Instant, commencing their approval of the adoption of a pre-audit of all bills on account of Salaries in the Civil Department of this Presidency the Civil Auditor requests the attention of all Officers in charge of Public Transactions, by whom Civil Salaries are disbursed to the provisions already issued to them from his Office and that they will be required not to discharge any bill for Salary and other allowances that may be presented to them for payment, which has not been passed by the Civil Auditor. All bills audited and bearing the signature of the Civil Auditor will be regarded by disbursing Officers as authority for discharging the same.

2. Officers in charge of Transactions both at the Presidency and in the Provinces will have to furnish the Audit Office with Journals or other accounts except those mentioned below; but will forward to the Accountant General the related bills bearing their initials and Treasury Stamp in token of their discharge, along with their usual monthly Journals as vouchers in support of the charges entered thereon. The disbursing Officers will require receipts in duplicate of the amount paid to individuals for credit in their Office.

3. The practice of forwarding Certificates of cash payment made in the Civil Department by disbursing Officers both at the Presidency and in the Provinces will hereafter be discontinued, as these documents will not under the new system be required for the purpose of audit. The Civil Auditor will in future on demand, furnish the Certificates to Officers only when quitting

the limits of the Presidency and to Military Officers in Civil employ on every occasion of their removal to the Military Department.

4. Military Officers will as heretofore on transfer to the Civil Department obtain and forward to the Audit Office a Certificate of last payment made to them in the Military Department, without the receipt of this document, no salary will be paid to them.

5. The attention of public Officers is further requested to the fact, that the early payment of their Salaries will depend on their despatching their bills to the Civil Auditor as soon after the close of the month as possible, and on their strict observance of the rules which have been laid down for their guidance.

6. Officers in charge of Public Treasuries in the Provinces are authorized to disburse to all classes of pensioners their allowances previous to audit, forwarding to the Civil Auditor for audit an Abstract, in the form with which they have been furnished, of the actual payments made. This Abstract after audit will be returned, and should be forwarded to the Accountant General with the monthly Journal.

7. Charges of a Contingent nature incurred in the Provinces will likewise be paid prior to audit, the bill being submitted to the Civil Auditor for audit after payment, but in those instances in which the rules in force provide for advances being made for the disbursement of Contingent charges, the bill that is of Contingent charges not of advances should be submitted for audit prior to its discharge from the Local Treasury.

8. Bills for Contingent charges should be furnished in duplicate (on foolscap paper) one copy of which will be retained for record in the Audit Office. The other Bill when received by the disbursing Officer should be forwarded to the Accountant General with his monthly Journal. Heads of Offices at the Presidency will in future forward their Contingent bills for audit in duplicate; only one copy of which will be audited and returned to them for discharge at the General Treasury, the other copy being retained for record in the Audit Office.

9. Disbursing Officers are requested to take special notice that no charge which falls under the audit of the Civil Auditor should appear in their Journals submitted to the Accountant General unsupported by an audited bill. To effect of regard being had to this rule in the debiting of Pensionary and Contingent charges, Disbursing Officers in Provinces will so arrange that no payment under these heads shall be made after a certain date, (say the 20th of the month) when a detailed Statement of the charges actually incurred should be submitted for audit. The Civil Auditor will not insist upon any particular course being pursued in furtherance of this object. It is left with the Officers of payment to select the course that may appear to them the most suitable, provided that the rule to which special attention has been requested is not violated.

10. Public Officers in the preparation of the Abstracts for audit will bear in mind the Notification of the Accountant General of the 19th April last, published at page 683 of the Gazette for the current year, which requires that Officers absent from their station should receive their Salaries out of the Local Treasury of their Station.

11. Under Instructions from the Post Master General, all bills for Salaries, &c. are allowed to be forwarded on the "Public Service." But Officers on leave either on account of ill health or private affairs are required to pay postage on whatever bill or letter connected with their Salaries, &c., that they may transmit to the Audit Office through the post, and these documents after audit will be returned "Bearing."

Civil Auditor.

PAYMENTS OF SALARIES TO OFFICERS ON LEAVE.

NOTICE

1. The adoption by the Civil Auditor of the system of pre audit of Abstracts for Salaries of Officers and other Civil Charges has rendered necessary a modification of the arrangement announced in my Notification dated the 19th, and published in the Port Saint George Gazette of the 22d of April last.

2. Instructions on the subject were issued by me to Collectors &c in a Circular, dated 20th ultimo but in order that the course of proceeding may be known to all Officers concerned, the following Notification is issued.

3. Officers who may be temporarily absent on duty, or on leave, in another District or at the Presidency, as the case may be, should forward their Abstracts for Pay and other allowances due for a past month on the 1st of the succeeding month to the Civil Auditor, who will pass and return the papers to them. On the presentation thereof by the Officers to the Calculator of the District where they may be located or to the Sub Treasurer if at the Presidency he will endorse the amount to the Officers. To enable the Collector or the Sub Treasurer, as the case may be to discharge the Abstracts in question the Collector of the District to which the Officers may stand permanently appointed will forward on the 2d of each month a Bill of exchange drawn by him on and in favor of, the Collector, or on and in favor of, the Sub Treasurer, as the case may be, for the net amount of Salary due for a past month.

4. In every case in which the amount of Pay and Allowance to be drawn for a past month by an Officer absent on duty or on leave as above mentioned, may differ from that actually drawn for the preceding month, a copy of the Abstract which he may have to send to the Civil Auditor on the 1st of the month, should be despatched by him previously to the Collector of the District to which he may stand permanently appointed, so as to reach him on the 1st of the month, in view to his regulating the amount of the Bill of Exchange which is to be forwarded by him on that account on the 2d of the month, as provided for in the foregoing para.

GENERAL ORDERS BY THE HON. LORDS THE GOVERNOR GENERAL OF

FORT WILLIAM, 29th February 1865

No 240 of 1865.—The following Notification, issued from the Financial Department, is published in General Orders:—

No 2, dated 29th February 1865.—Recd a Despatch from the Hon^{ble} the Court of Directors, No 107 of 1865, dated the 9th December.

RESOLUTION.—The Hon^{ble} the Court of Directors having approved, with certain modifications, of a Code of Rules recommended by this Government for regulating leave of absence and acting allowances to Public Officers in India not in the Government Service of the East India Company, the Hon^{ble} the Governor General in Council is pleased to resolve, that the following Rules, together with the Despatch above referred to, be published in the *Official Gazette* for general information, and be held applicable, from the date of the publication of the Notification, to all Officers in the Ungoverned Service of the Government who may be in the receipt of salaries of Rupees 100 a month and upwards.

FINANCIAL DEPARTMENT

No 107 of 1865

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL

- 1 We have carefully considered the papers accompanying your Letter *noted in the margin*, relative to the proposed amendment of Rules for the regulation of leave of absence, &c., to the large and increasing class of Public Officers not in the Government Service of the East India Company, but, nevertheless in many cases performing duties of great importance and responsibility. It is scarcely necessary to observe that we share to least them in this, as in all other respects, with the utmost liberality and consideration that may be consistent with the interest of the Public Service.

2. Adopting as a principle to be invariably maintained, that in such special case of absence of an Ungoverned Officer, the expense incurred thereby is to be defrayed out of the Absentee's Salary, we are prepared to enter in the grant to Ungoverned Servants (receiving Rupees 100 per month and upwards) of the advantages or respects not here and here on private officers proposed in the Code under consideration. The advantages may be summarily stated, as follows:—

1st.—*Half Allowance*.—The grant of leave for three years altogether, during the entire period of absence, of which two years only may be continuous or within six months for Pension. During one year of absence, the Allowance to be subjected to the deduction of half, and during the remaining period, of two-thirds, of his allowances, provided that he shall in no case draw a larger sum than Rspees 6,000 (6000) per annum.

The maximum being thus fixed, we shall leave it to the Local Government, in the exercise of their discretion to determine in each case how far the advantages of the Rules should be modified with reference to the length of service of the Applicant and other circumstances. We desire however that, after a continuous absence of two years on such certificate, an interval of two years shall elapse before further leave on that account is granted.

2nd.—*Leave on Private Affairs*.—The grant on leave for one month in each year without deduction; for six months on sufficient cause being shown with deduction of half allowance provided the rate of Rspees 6,000 (6000) per annum be not exceeded, and under special circumstances, for twelve months without forfeiture of appointment but without pay and without the leave counting as service for Pension.

These latter advantages may we think be fairly extended in special cases to Ungoverned Service, since a regular Forfeiture on Private Affairs cannot be granted to them, and the loss of their appointments involves practically the loss to them of the service. But it should not be allowed more than once during the period of service.

3rd.—We assent to your suggestion that Heads of Offices in cases of urgency may be authorized to grant leave of absence on Medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

4th.—The Rules proposed regarding the allowances of persons appointed to act for Absentees appear unobjectionable.

We are,

Your affectionate friends,

**RULES FOR REGULATING LEAVE OF ABSENCE AND ACTING ALLOWANCES
TO PUBLIC OFFICERS IN INDIA NOT IN THE UNGOVERNED SERVICE
OF THE EAST INDIA COMPANY**

CHAPTER I

RULES FOR APPLICATION OF LEAVE OF ABSENCE

Section I. Leave of absence to Officers not in the Governed Service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only under which office is held, on application made primarily through the regular channel in the Department to which the Applicant may belong, but in respect of all other Officers, it will be applied with the Local Government in despatch to Heads of Offices or Departments, prior to act upon the Rules without special reference to higher authority.

Section XX. Absence without leave will render the Absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section XXI. No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by Medical certificates conforming in every respect to the directions contained in Section IV.

CHAPTER II.

LEAVE FOR SICK LEAVE.

Section I. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a statement of the case from the Medical man by whom the Applicant has been attended, distinctly setting forth personal observation, the nature of the disease, the symptoms by which it is manifested, the causes by which it has been probably produced, and the period during which it has existed so far as the knowledge of the Medical Officer extends; and by a certificate from the Chief Medical Officer of the station or district, or if at a Presidency Town, from a Presidency or other Of- ficial Surgeon certifying after careful personal investigation, the necessity for temporary removal, and the period for which absence is, in the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must in the first instance be countersigned by the Superintending Surgeon of the Division in which the applicant may be located; and in cases of leave beyond six, be afterwards submitted, with the statement of the case, for the consideration and counter-signature of the Members of the Medical Board.

The certificate shall be given in the following form:—

I, A. B., Surgeon, do or do not — do hereby certify that B. F. (have under designation of office) is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery; and that the circumstances of his case are such as to render leave of absence for the period of — absolutely necessary (or highly desirable.)

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in counter-signing the certificate:—

I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of B. F. to be such, as to render leave of absence for a period of — absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the Applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the Applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be counter-signed by the Members of the Medical Board, or by the Superintending Surgeon of the Division in which the Applicant may be located. In like manner, if the Applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a certificate and statement to the medical effect from a Surgeon or Physician, at the place of his temporary residence, by whom he has been attended; such certificate and the period of it to be signed, and the certificate to be counter-signed by the consulting Physician of the East India Company if the Absentee is in Europe, or by the principal Medical Authority of the Colony or country to which the Absentee may have proceeded; or some sufficient reason stated for the want of such counter-signature if not produced.

The Officer counter-signing must either personally examine the Applicant,

or state some sufficient reason why he had been unable to do so, when any of the required particulars are neglected, leave will be refused.

Section V. Leave of absence will be granted under the following Regulations to Servants who may be declared by a sufficient Medical certificate to require leave for the restoration of their health:—

1. The Right to leave on Medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous and two years only will be permitted to reckon as service qualifying for Pension.

2. Leave of absence on Medical certificate will not be granted for a longer period than twelve months at any one time, which may however be extended if necessary under renewed Medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on Medical certificate, an interval of two years shall elapse before further leave on that account is granted.

3. During one year of the entire period of Absence under this Rule, the Absentee will be subjected to a deduction of one-half and during the remainder to a deduction of two-thirds of his allowances, provided however that he shall in no case draw a larger sum than Rupees 6,000 (£800) per annum.

4. In cases of extreme urgency, the Heads of Office are authorized to grant leave of absence on Medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

Section VI. Parties who may desire to draw their allowances while absent on leave, will be required to give security in such amount and form, as may be fixed by Government for the refund of any excess that may be drawn in case of their ceasing under re-employment.

CHAPTER III.

RULES FOR LEAVE ON PRIVATE AFFAIRS.

Section VII. Leave of absence may be granted for one month in each year, or, to Judicial Officers, during the authorized closing of the Civil Courts, without deduction from salary.

Section VIII. In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the Absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£800) per annum be not exceeded.

Clause 1. The leave granted under this Section will be computed from the date of the Absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the Absentee shall have returned to his duty.

Clause 2. Leave taken under this and the preceding Section will reckon as service qualifying for Pension.

Section IX. In addition to the leave which may be granted under the preceding Rules on Medical certificate or private affairs, Government may, at any time under special circumstances and at its discretion, grant leave of absence even during the period of service not amounting to twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards Pension.

Section X. No leave of absence on private affairs shall be claimable by any party whatever under these Rules as a matter of right; such leave will be granted only at the pleasure of the Government or its authorized Officers when

the continuance of the indulgence in no way interferes with the interests of the Public Service and it shall be the duty of the Government to grant leave (except in the case of leave granted under Section VII) to all officers and determine whether the grounds of the application are sufficiently urgent to justify the continuance of the leave.

CHAPTER IV

RULES FOR ALLOWANCES, &c.

Section XI. No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

Section XII. An Officer holding a situation, appointed to one of equal or higher value, will until he joins, draw so much of the salary of his new Office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following Rules, should he do so, no salary will be paid to him for such period as excess.

Section XIII. The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted) together with a week to prepare for the journey; but on occasions of emergency it will be optional with the Government to prescribe the period within which any journey is to be performed.

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real establishment and the substitutive allowances of every Officer temporarily acting in a situation of superior establishment, will be subject to deduction at the same rate but no additional expense is on any account to be incurred by the absence of any Officer on leave.

NOTIFICATION.—The following Extract from a despatch from the Honorable the Court of Directors addressed to the Government of India in the Financial Department, No. 25 of 1897, dated the 17th April is published for general information:—

Para. 1.—We concur in your having ruled that leave on private affairs cannot be taken by Un Governmented Servants in consideration of privilege leave

Letter from, dated 17th October 1896, No. 145

Sketch copy of a letter from the Government of Bengal, referring for decision two questions connected with the Un Governmented Service Abandonment Rules

2 With regard to the revocation of Section 6, Chapter III, of the rules, we do not object to allow the privilege leave of Un Governmented Servants to accumulate up to three months in a maximum period. But if the leave of one month in the year be not taken in one period we cannot permit it to be divided into more than two instalments. We append the Rule in the shape in which we are prepared to sanction it, viz

Section 6 Clause 1.—Leave of absence may be granted for one month in each calendar year without deduction from salary provided that the total leave can be granted without injury to the Public Service or additional expense to Government. These Servants who may not have occasion to apply for the whole month's leave at once may divide it into two instalments. No casual leave shall be granted under this Rule until the completion of eleven months from the expiration of the last leave if taken at one time or from the date of return from any sick leave or leave on private affairs, or if the leave be taken in instalments until the completion of six months from the expiration of the last instalment. Un Governmented Servants not availing themselves of the indulgence in any one year may, at the option of the Local Government obtain under the like conditions leave of absence for two consecutive months to commence at or after the expiration of twenty-two months from the termination of their former leave, and if two years elapse without availing of the privilege, leave for three months may, in like manner, at the option of the Local Government be granted at the expiration of twenty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If a servant shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the term of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted his office shall become vacant.

Clause 2.—Officers of the Judicial Department taking leave during the authorized closing of the Civil Courts will be allowed to draw full salary during such leave but will not be held entitled in addition thereto, to privilege leave under the 1st Clause of this Rule.

Rules regarding the examination of Unconvenanted Servants.

MILITARY DEPARTMENT

No. 200

Extract from the Minutes of Consultation, 14th April 1894.

Read the following:

Extract from the Minutes of Consultation, in the Public Department, dated 1st April 1894, No. 200.

Read the following Resolution of the Government of India, No. 120.

FORB WILLIAM, HOME DEPARTMENT, 22nd January 1894.

Read again the paper passed at the Consultation of the date noted in the margin* regarding the examination of Unconvenanted Servants.

* Cons. Res. Feb. 1894, No. 15.
Nov. " 21 to 22.

REMARKS.—The Most Noble the Governor General in Council observes that in February last, a reference was made to the local Governments, and to the several local administrations under the Government of India, with a view to ascertain whether any, and what, steps had been taken towards testing the qualifications of the Unconvenanted Servants of Government in all Departments, in the same manner as those of Convenanted Assistants are now tested under the Regulations. Rules in force for that purpose. To this reference replies have now been received, and the following is a summary of their contents.

3. In the Madras Presidency except as regards the Judicial Department wherein parties are required to pass an Examination before they can be presented to the Office of District Munsiff, no measures analogous to those in force for the Examination of Convenanted Assistants have been adopted for testing the qualifications of Unconvenanted Servants. This is accounted for by the circumstances that, with the exception of a few Offices at that Presidency, Unconvenanted Executive agency of the description so extensively employed in Bombay, Bengal, and the North Western Provinces, is unknown in Madras. But a plan for the employment for such Agency has been submitted to the Government of India, and is now under consideration.

3. From the Report of the Bombay Government it would appear that Unconvenanted Servants in all departments at the Presidency are subjected to an examination. In the Revenue and Judicial Departments the Honorary and District Deputy Collectors, if Natives of the country, are required to pass an examination in English, and in cases where the Vernacular language of any of these Officers is not that of record in the Collectorate to which he is appointed, he is required within two years from the date of his appointment, to pass an examination in reading and writing the running hand, and in the colloquial branch of the latter language. Besides this, Unconvenanted Deputy Collectors, and Magistrates, are required to obtain a knowledge of the systems of Revenue accounts, and to pass the same examination therein as Convenanted Assistants to Collectors, the duties performed by both being similar.

4. Unconvenanted Officers in the Public Works Department as well as all Officers holding the appointment of Executive Engineers, or Assistant Executive Engineers are required to pass an examination in the language of the District in which they are employed, sufficient to prove such an acquaintance with the language, written and spoken, as enables the Officer to converse with Natives of all classes, to read and understand petitions without assistance, and to superintend and revise accounts kept in the Native language of the District.

5. Unconvenanted Assistants in the Revenue Survey Department are required to pass an Interpreter's examination, either in Marathi or Gujarathi and an examination as regards reading and speaking in the language of the District in which they are to be respectively employed. They are also required to possess a competent knowledge of plain Trigonometry, Field Surveying and Topographical Drawing, and a perfect acquaintance with the rules for the guidance of the Native establishment, in the execution of the various operations connected with the Survey.

6. All Unconvenanted Assistants not included in the above classes, are required to possess a good colloquial knowledge of Hindoostanee, as also a knowledge of the language of the Districts in which they are employed. An examination in the former, must be passed within six months, and in the latter within two years. 50 Rupees being deducted from the full salary of the Office until the first examination is passed, and 20 Rupees until the second.

7. The Bengal Government has passed certain rules for testing the qualifications of its Unconvenanted Servants, but they are not at present acted upon as consequences of the pressing want of Subordinate Officers fit for employment in responsible situations, which compels the Government to appoint, without reference to their English acquirements, men whose judgment and general knowledge of public business, can be relied upon.

4. The Rules when cited upon, will require all Deputy Magistrates and Deputy Collectors to undergo the same examination, as that in which Government Assistants are subjected, and to pass by the first standard. They will also be required to pass the second standard before they are rated with powers of a higher order, or promoted to a higher grade.

5. As a general rule, it is held down, that no person can be appointed to the subordinate Executive service, who has not a sufficient knowledge of the English language to enable him to pass the examination above referred to, or the same qualifications in that respect as are at present required in persons appointed to the lowest rank of Native Judges. This rule is applicable also to Superintendents or Assistant Superintendents of Salt Chokeys, and to Sub Deputy or Assistant Sub Deputy Opium Agents, who must also be examined, the former in Bengali according to the first standards, and in the Salt Regulations and practice, the latter in Hindustanee and in the Opium Regulations and practice. In other cases the examination embraces such parts of the Revenue and Judicial Regulations, as Officers of their class have to be guided by in the course of their duty.

10. These Rules do not however preclude the appointment, and employment of an Officer in the lowest grade, before he has passed by the first standard, but they demand his removal, if he does not so pass within a year.

11. The measures as yet taken in the North Western Provinces for testing the qualifications of Uncommissioned Servants of Government, have been to demand all Uncommissioned Deputy Collectors and Deputy Magistrates who possess a sufficient acquaintance with the English language, to take part in the examinations for higher grades of powers which are prescribed for Commissioned Assistants. The Lieutenant Governor is however in communication with the Board of Revenue, with a view to extend the system of examination to all Deputy Collectors and Tahsildars, in the Revenue Department; the position of this class of Officers involving duties of a very serious and important character. Under the existing system, every Deputy Collector is also appointed a Deputy Magistrate; and Tahsildars are very generally invested with the same powers, but on their first nomination to the Revenue branch of the service, in which probably the most important portion of their duty lies, no proof of efficiency is required. It is the intention of the Lieutenant Governor to require that these Officers who shall pass a test, similar to that appointed for the Commissioned Servants of Government; and also May 1864 the Board of Revenue have been requested to notify, that after the expiration of six months, no one should be appointed to the Office either of Deputy Collector, or of Tahsildar, who did not possess a competent knowledge of Surveys on the Panchaj system, of Khasra writing and of Patwarree Accounts.

12. It had been the intention of the Lieutenant Governor to allow no Deputy Magistrate to be raised to the grade of Judicial powers higher than those of an Assistant, until a system of examination could be matured which should embrace all Officers of the class. The restriction has been strictly maintained in regard to the Tahsildars, who in many instances have been appointed to be Deputy Magistrates, but the pressure of duty has led to permission being given for occasional relaxation of the rule in this case of Deputy Collectors of specially certified experience, and good character, who had held office as Deputy Magistrates for some considerable time.

13. In the Punjab only one class of Uncommissioned Servants, the minor Assistants, are subjected to the same examination as Commissioned officers. Certain proposals are now under consideration for the examination of Tahsildars and Darogahs. The Chief Commissioner does not clearly apprehend, with reference to which class of Uncommissioned Servants the enquiry is made, and he remarks, that if it is intended that all should be examined, a system of examination will be devised if requisite, on his receiving instructions to that effect.

14. Nothing has been done in the Transvaal and Northern Provinces, towards testing the qualifications of Uncommissioned Servants. There are only

ten Unrepresented Officers of a stipular grade employed under the Commission, but there are others who draw from Rs. 200 to Rs. 250 a month. The Commissioner desires to be informed what class of Officers are to be examined, and what test is to be applied to each class.

14. The Commissioner of Pooné states, that there has been no special examination to test the qualifications of the Unrepresented Servants in this Province, but great care has been taken in selecting them.

15. Nothing has been done in Nagpur towards testing the qualifications of Unrepresented Servants. The term Unrepresented Servants the Commissioner presumes it is intended to apply only to the Extra Assistants, and possibly also to Tahsildars, but not to ministerial officers, such as the Tahsildars and other Umls. If the qualifications of the first named Officers are to be tested, the Commissioner desires to be furnished with specific rules, and to be informed within what period they will be expected to pass.

17. The Commissioner takes the opportunity to solicit instructions on the subject of the examination of the Assistant Commissioners of the Province. He presumes, the Panjab rules in respect to the class of Officers, will be held to be applicable to the Assistants of the Province of Nagpur.

18. The Governor General in Council remarks with satisfaction, the progress that has been made in providing for the examination of Unrepresented Officers both before they are admitted into the service of Government, and before they are promoted to the higher grades, and entrusted with higher power.

19. The enquiry set on foot under the orders of the President in Council, had special reference to such Unrepresented Officers in the several branches of Executive Administration as are entrusted with independent authority and empowered to exercise the functions of Government Assistants in either of the Magisterial or Revenue Departments of the Public Service.

20. The Governor General in Council is of opinion that no person should be appointed to any charge of the nature above described, without first undergoing an examination in the vernacular language of the district in which he is to be employed. This is the rule observed with Government Assistants, and it should be made universally and invariably applicable to all persons appointed to exercise powers analogous to those with which Government Assistants are vested on their first appointment.

21. In addition to this, His Lordship in Council is of opinion that no person whether European or Native should be appointed to any such office without first undergoing an examination to test his general knowledge of the district he will be required to perform, and his proficiency in the ordinary branches of school education. For this latter purpose, it is not absolutely necessary that the Candidate should understand English, but he should be required to possess a critical knowledge of, and facility of composing in at least one language, to be well grounded in the Elements of Algebra and Geometry, and their practical application to Surveying, and to know the leading facts either of India or of English History. It is clear that under such a system of examination, Candidates understanding English would have an advantage over those unacquainted with English, and to this extent the Governor General in Council is not unwilling that the former should have the preference. Hereafter an University degree may be allowed to stand in the place of this examination.

22. The Governor General in Council is not yet prepared to promulgate his examination of Candidates for public employment as a rule from which no exception is under any circumstances to be permitted, especially in the more important branches, where it is frequently impossible to test persons possessing the requisite knowledge to give such a test; but he is of opinion, that in the other branches, it should ever now be observed with strictness, and every where it should be the constant object of the local administration to induce it as far, and as soon as practicable, and that in places, or in particular instances where it cannot yet be fully carried out, care should be taken

to give preference to educated, and generally well-informed Candidates, possessing the useful special attainments, over those who are qualified only in the latter respect.

23. The Governor General in Council desires, that the rules in Force for the examination of Conventional Assistants by the first and second standards may be made strictly applicable to the promotion of Unconventional Officers, and that the qualifications which in the Punjab are required of such Officers before they are entrusted with the higher powers, may also be required of those in Mysore, Poona, and the other non-regulation Provinces under the direct control of the Government of India. Wherever provision has not been made for the examination of Conventional Assistants, early steps should be taken to supply the deficiency.

24. The examination of Candidates for Moonshiships is separately provided for.

25. In regard to the selection of Candidates for employment in the lower grades of the Public Service, whether as ministerial officers or otherwise, the Governor General in Council feels it impossible to lay down any general rules; but he desires that all Officers having in their hands the selection of persons for such employment, may be guided by the general principle of examining Candidates with a view to test their general, as well as special qualifications, and of giving the preference to those who are educated, and well informed, over those who are not, when both are equally well qualified for the special duty required.

Ordered that a copy of the foregoing Regulation be forwarded to the Governments noted in the margin^a for information and guidance, and that a copy be also forwarded to the Foreign Department for communication to the Chief Commissioners for the Punjab, to the Resident of Hyderabad, and to the Commissionsers in Poona, Mysore, Bombay, and the Tanjore and Malabar Provinces.

(Signed) CECIL BEADON,
Secretary to the Govt. of India.

1. Ordered to be communicated to the several Departments of the Secretariat and to the Board of Examiners.

2. It is observed that the instructions contained in the above proceedings, apply mainly to the examination of the Unconventional Assistants in the Revenue and Magisterial Departments, and of parties who are Candidates for such appointments. Unconventional Agency of the kind here alluded to is mainly known in the Madras Presidency, but a scheme for its introduction to a large extent is at present before the Government of India. The nature of the commission, to be procured for such Unconventional Assistants as may hereafter be appointed in this Presidency, will be separately considered by Government. Meanwhile, the Right Honourable the Governor in Council resolves to circulate these Proceedings of the Supreme Government through the proper Departments to all Heads of Offices at Madras and in the Provinces, and to draw their attention to the desire expressed in the concluding part, viz., that all Officers having in their hands the selection of persons for employment in the grades of the Public Service below that of Unconventional Assistant, whether as ministerial Officers or otherwise, are to be guided by the general principle of examining Candidates with a view to test their general as well as special qualifications, and of giving preference to those who are educated and well informed, over those who are not, when both are equally well qualified for the special duty required.

A Secretary to the Committee will be nominated by Government.

VII. *Duty of the Central Examination Committee.*—It shall be the duty of the Central Examination Committee to fix on every session the half-yearly examination days, which shall be the same for every Local Committee Station. It shall be the duty of the same Committee to prepare before hand, for each examination, sets of questions to be put to the Assistants under examination, a sufficient number of copies of each of which sets shall be forwarded to each Local Committee, in a sealed packet, not to be opened until the moment of examination. The Central Examination Committee from time to time, shall lay down such rules as may appear to them best for the guidance of the Divisional Committee, in order to ensure a fair and uniform method of fixing the degree of attainment upon each point of examination which the several Assistants examined may reach.

VIII. *Divisional Examination Committee.*—At the several Stations where the examination is to be held, a Committee consisting of Public Officers, to be called the Divisional Examination Committee, shall on each occasion be constituted by Government, and the Judge of the Station if not absent on leave, shall be a Member. IX. *Duty of the Divisional Examination Committee and Reports of the Examinations.*—The Examinations shall be conducted by the Divisional Examination Committee, who after due deliberation in respect of each Assistant examined, will record the result, stating their opinion as to whether the standard of qualification has been attained or not; which result in case of differences of opinion, will be determined by a majority, and shall deliver the record to the President. The President shall transmitt the record to the Central Examination Committee with his own Report, wherein he shall state his agreement or disagreement with the Divisional Committee in each case. The President will be responsible for the fairness, impartiality, and proper conduct of the examination. The written answers of the Assistants, and the other papers written by them either in the Vernacular or in English, shall be forwarded with the record. The Central Examination Committee, after taking all the Reports into consideration and perusing any of the examination papers that it may see to them proper to peruse, shall report to Government the names of such Assistants as in their opinion have proved their qualifications according to one or other of the standards in force, noticing especially, in the order of their rank any Assistants who, with reference to the length of their residence in India, may have passed with great distinction.

X. *Principal object of the first standard.*—The principal object of the first standard of examination shall be to test the proficiency, for practical purposes, of the Assistant in the Vernacular language of his District. For

this purpose at least three papers which he has never seen before, taken from Official Records very much at hazard, and written by different persons in a plain running hand, must be read aloud by the Assistant constantly, and without great difficulty and after being read aloud, their contents must be correctly explained by him in English. An English judgment or other Official paper to be furnished by the Central Committee, must be translated by him into the Vernacular, without assistance. The translation must be substantially correct in meaning, and intelligible to a Native; it must be correct in grammar and spelling, and free from any very bad errors of idiom. He must dictate off-hand, with some fluency, the translation into the Vernacular of an English report, or other Official paper also to be furnished by the Central Committee, whereas the translation will be written down exactly as dictated. The dictated paper must in like manner be intelligible and substantially correct. He must then be tested in conversation with two or three Natives in such manner and to such extent as shall suffice to satisfy the Committee as to the degree of his power of understanding Natives of different classes and of making himself understood by them—such conversation or colloquial examination to be confined to the ordinary duties and business of a Court or Outstation and not to obscure abstruse or peculiar subjects. An Assistant must pass successfully through every step of this branch of the examination, in order to qualify according to the first standard.

XI. *Second object of the first Standard.*—The next object of the first standard of examination shall be to test the Assistant's general acquaintance with the leading principles of the Systems of Revenue Administration and Criminal Justice and especially with so much of the laws and Rules of Procedure as it is necessary for an Officer to know, in order to exercise properly the highest functions of an Assistant to a Collector and Magistrate. For this purpose, a set of questions on Revenue, Magisterial and Police subjects shall be furnished by the Central Committee. These questions should be so framed as not to involve points of difficulty or rare occurrence; and to show rather the possession, or the want of a general and intelligent acquaintance with the subjects of Examination and the fundamental laws applicable thereto, than of a knowledge of a string of points of detail and dates of writers, which may be soon learned for the occasion, and are generally so soon forgotten again. These questions must be all answered without book. The Assistant should also be examined generally as to his knowledge of Outstation Accounts—both the English Accounts kept at the Hoosur and the Native Accounts Taluk and Village—of Hakkimnashah of his District, and of its past revenue history as to be learnt from the records.

XII. *Third object of the first Standard.*—The next object of the first standard of Examination shall be to test the power which the Assistant may have acquired to deal with conflicting arguments and evidence, in actual cases. For this purpose two detailed cases, with the final proceedings in each withdrawn which the Assistant has never before seen, one from the Collector's and one from the Magistrate's Office, of the nature of cases coming before Assistants exercising the highest functions of an Assistant to a Collector and Magistrate, shall be given to the Assistant. The papers may be read over to him by a Native Officer; and the explanation of any difficult word or phrase may be asked for and given in the Vernacular, the circumstances being in such case noted. The Assistant may now refer to all his books, and may take his notes as the case is read over. At the conclusion of each case he must write in English a brief but precise description upon the questions at issue, with a succinct statement of the grounds on which it is founded.

XIII. *Fourth object of the first Standard.*—The last object of the first standard of Examination shall be to ascertain how the Assistant has been employed, and how he has done his duty at his Station. For this purpose the Collector and Magistrate under whom he has been employed shall furnish the Committee with a report upon these points. It shall be the duty of such Officers, to make over to their Assistants from time to time cases for report.

The reports shall be written in English on one side of a sheet of paper; and after the score is decided, the Officer who decides it shall note on the other side of the sheet his remarks upon the report. These reports with the notes thereon, shall be submitted to the Divisional Examination Committee. Such Officers shall also require their Assistants to make English Minutes of the cases given to them for decision, which Minutes also shall be submitted to the same Committee. But these reports and Minutes need not be sent up to the Central Examination Committee. The opinion formed of them by the Divisional Committee, however, shall be entered in the record submitted to the Central Committee.

XIV. Second standard.—The second standard of Examination shall be similar in its nature to the first, but more difficult in degree. In the Vernacular portion of it, the reading of a common office running hand must be tolerably ready; the papers selected as tests should be of a more difficult description of office papers, the translation, dictation, and conversation should be simple, generally correct and readily intelligible; and the Assistant should be tested in his power of explaining himself clearly, and with sufficient propriety in the Vernacular, in an argument or topic of some difficulty such as may occur in official business. In this Examination it will be necessary for the Assistant to pass in two Vernacular languages of which one shall be the language of the District in which the Assistant is stationed at the time of the Examination, and the other any one of the languages, including Hindustani prevailing in the Madras territories, which the Assistant may prefer. Provided that ordinarily and except on special grounds, no Assistant shall be promoted in any District, in the Vernacular of which he has not passed. The test described in this Rule shall be strictly enforced in respect of the language of the District in which the Assistant is stationed at the time of examination, but will be relaxed in respect of the second language, and in respect of any other language which an Assistant must pass before he can be promoted in any District in which it prevails. Ability to write the language will not be required but only a fair colloquial acquaintance with it on the part of the Examinee and power to translate correctly an official paper read to him; to dictate orders in the language and read ordinary returns. The questions of law and practice should be selected from the whole field of the duties of a Magistrate and Collector; but they shall be arranged in two classes, one class comprehending important and leading points, in answering which no books shall be allowed; and the other class comprehending less general and less common points, in answering which the assistance of books shall be allowed. No Guides, Digest or Summaries, however, shall be permitted to be used, the Assistant being confined to the original laws, Chamber Orders, and constructions. The object of this class of questions is to test the Assistant's knowledge of where reality to find the law or practice on the less common points that arise in business. In propounding these questions, nice and difficult points should be avoided; the object being not to create subtlety or ingenuity, but only to ascertain whether the rapidity and capacity of the person examined are adequate to enable him to perform fully the important functions of an Indian Magistrate and Collector, or not. The trial cases should be selected from those presenting enough of complexity to test the Assistant's ability to master all ordinary difficulties and especially to test his power of minute attention to and just appreciation of evidence.

XV. Object of the second Standard.—It shall be the object to make this second standard such that a man who has passed a College examination, being of ordinary understanding and capability, who thence applies himself with proper diligence to his business, and makes it his daily object to familiarise himself with the language of the Country, may pass it after two or three years of faithful experience.

The grant under peculiar circumstances to an Assistant Collector of the additional allowance of 175 Rupees per mensem before he was entitled to it under the Standing Orders in the first instance, and subsequently to others as † special cases, appears from the number of applications which have of late been received, to have led to an

understanding that the indulgence will be granted in every case in which the applicant may have been prevented, by the necessity of returning to Europe for the benefit of his health, from completing the prescribed term of service in the Revenue Hqs. and residence in the Country at as early a period as he otherwise would have done.

As such is by no means the intention of Government, it is resolved that a deviation from the Standing Rule shall be allowed only in the case of an Assistant having served three years in the Revenue Hqs. but not having completed the term of six years' residence in the Country in consequence of having been obliged to quit it on account of ill health. The Civil Auditor will be authorized in all such cases to pass the allowance from the date when the party completed the term of three years' service in the Revenue Hqs.

Prepayment must be made, or now, by Stamps

Offy. Director General of the Post Office

which is to be paid by the Officer posting them. The rate of charge for disbursements according to Rule 8 will be stated at the foot of the Memorandum and whatever amount may be incurred by the Traveller must also be paid at the end of stage. No submission of this rule will be permitted under any circumstances.

4. To protect Government from all loss, the application for a Dāk, in the case of parties belonging to Her Majesty's or the Honorable Company's Services, must be accompanied by an assurance in writing that all charges incurred for their Dāk will be paid on demand. From all other parties the security of a House of Agency for the payment of all charges on demand, is requisite; but the Officer issuing the Dāk may, at his discretion and on his own responsibility, accept a written assurance to the same effect in lieu of the above security.

5. A set of Dāk Bearers will comprise four men, viz., twelve Palankeen Bearers, one Mandjoe and a Chowdy Cooly. When Chowdy Coolies cannot be procured, two Coolies will be employed instead, at the same cost.

6. The rate of hire to be paid to the Bearers will be fixed by the local authorities. When Bearers are brought from a distance, the Traveller will be required to pay them the regular hire and travelling hire.

7. Rate of Bearer shall receive (3) three Pies each Bearer for every mile they travel to their post, which allowance is called travelling hire, except for such part of the road as they travel over again with a loaded Palankeen, for which part they shall not be entitled to travelling hire, unless the distance which they travel to their post exceeds 20 miles, in which case they shall be entitled to travelling hire for the whole distance, notwithstanding they return over a part or the whole of it with a loaded Palankeen.

8. If Bearers are detained on the road they are to receive (1) one Anna each for the first day and (2½) three and a half Annas for each succeeding day, from the party for whom they are posted, whether they are used or not, and after retreating 3 full days they will be discharged and without further intimation return to their homes, unless notice is given for their further retention. Bearers carrying an empty Palankeen shall be entitled to 3 Annas per mile, for the distance they convey the same, in addition to any travelling hire to which they may be entitled under these Rules.

9. When a Dāk has been ordered and circumstances may cause the Traveller to postpone his journey, or to abandon it altogether, he will be liable, to all charges actually incurred in like manner as if he had employed it.

10. When Bearers are posted for a Traveller, no other Traveller shall employ them, without the authority of the Officer who posted them; but should any individual so act in violation of the orders of Government, he will be liable, in addition to the hire of the Bearers used to all and every extra charge incurred, by the Traveller for whom the Dāk was originally hired.

11. In order to facilitate the hiring of animals, all fractional portions of a mile will be struck out. If the fractional part exceed the half, the Bearer will enjoy the benefit of a full mile—if less than the half, they will not be entitled to any hire for the same.

12. All charges of hire shall be made agreeably to the Table of Distances and rates in the Madras Road Book.

13. The load for a Chowdy Cooly shall not exceed 25 lbs. weight, divided as nearly as possible, into two equal portions of 25 lbs. each.

14. All applications on the subject of Posting Bearers (except what made on Service by one Public Officer to another) shall be paid, and

superadded "Dinner Service," in order that no delay may occur in their being issued by the proper authority. If this is infringed, the Traveller will be held responsible for any charge that may be incurred consequent thereon.

15. In all cases of charges being made which to the parties concerned may appear irregular, the decision of the Post Master General shall be final, unless the charge complained of was made by the Deputy Post Master General, when appeal is permitted to Government. Travellers are not, however on this plea to withhold payment from the Bearers of any sum entered in the Memorandum presented by them—all such objections will be subsequently adjusted.

16. It is to be understood, that although Government has directed its Public Servants to lay Dak Bearers for the convenience of the Public, and will cause due pains to be taken to ensure regularity and a punctual attendance to all regulations, yet that neither Government nor any of its Officers are to be held responsible to the Traveller, for any unavoidable disappointment he may meet with on his journey, or for the expenses consequent thereon.

17. All parties availing themselves of the services of the Officers of Government for laying Dakas are to be held as ipso facto binding themselves to adhere to the above Regulations.

18. Nothing in the foregoing Rules is intended to interfere with Travellers applying to private individuals to post their Bearers, should they prefer making their own arrangements without the intervention of the Public Authorities.

Published by order of the Right Honorable the Governor in Council.

H C MONTGOMERY,
Chief Secretary.

MADRAS RAILWAY COMPANY.

1. The Deed of Settlement of this Company was signed on the 26th July 1880; it was completely registered in September of that year, and was incorporated under the above name by Act of Parliament XVI and XVII, Vie. Ch. 46, for the purpose of making and constructing one or more Lines of Railway in the Madras Presidency.

2. In December 1882 a contract was entered into between this Company and the East India Company to the following effect, viz. to construct an experimental Line of Railway, to commence at Madras and to take a direction towards the Western Coast of India, the estimated cost of which was 800,000 pounds sterling.

3. The East India Company engage to pay a sum equal to 4½ per cent. per annum on the capital raised by the Company and paid into their Treasury, to be expended in the construction and management of the works. Should the working expenses of the Line absorb the whole receipts of the Traffic, the Shareholders will, by the agreement, still receive their 4½ per cent. interest, should the receipts be in excess, the amount will be carried to the credit of the guaranteed interest until it amounts to 4½ per cent.; and should further profits be realised, half the excess is to go to the Shareholders of the Railway Company, and the remainder is to be paid over to the Government to reimburse them for the amount paid under their guarantee during the period of the construction of the Railway, and such other time as they may have been called upon to make payments on that account. Should the profits amount to more than 10 per cent., the rates of tolls are to be reduced.

On the other hand, if the Railway in its working should prove unprofitable, or from any other motive it may be deemed advisable within 99 years, the Railway Company have the power to abandon the Line to the East India Company after three months' trial of the working and six months' notice and the sum expended on the construction of the Line is to be reimbursed to them on an Amortisation Commutation, i.e. instead of paying a gross sum of money it shall be at the option of the East India Company to pay an annuity to be released from the line when the gross amount would be payable and to run three during the residue or the said term of 99 years. The East India Company grant a free lease of the Lands over which the Railway will pass for 99 years, and reserve to themselves the option of purchasing at the expiration of twenty-five and fifty years; Mails are to be carried free; Soldiers and Government Stores at the lowest rate charged for similar goods; the works to be constructed under the supervision of the Government.

4. By Acts of Parliament XVII and XVIII, Vie. Ch. 29, the Company were empowered to enter into further contracts with the East India Company for the extension of the said experimental Line of Railway to the Western Coast of India, and for a Branch Line to Bangalore, and to the foot of the Hills towards Ootacamund respectively, and power was given to the Railway Company to make such contract as might be deemed necessary for carrying into effect the said contract. The East India Company have engaged to pay 5 per cent. on the capital, viz., £200,000 raised by the said Company, termed *First Extension Shares*; and have on a further increase of the Capital guaranteed to pay 4½ per cent. upon £1,000,000 sterling, termed *Second Extension Shares*, or such amount as might be paid into their Treasury, so raised by the Directors of the Company, and subsequently have engaged to pay 6 per cent. on an additional million for the Cochin Line.

5. By Act of Parliament XVIII, Vie. Sec. 1884-85, the Board of Directors of the Company are empowered to establish Offices in India for the issue of registration of Shares, Registrars will be kept in Offices in India for the transfer of Shares, but none of such Shares are ever to be on the Register of more than one Office at one and the same time. Shares however, may be

transferred from one Register to another at the option of the holder, that is, from the Register at Madras, to the Register in London or vice versa.

The Company have also engaged to construct a Line of Railway from Madras to join the Trunk Line from Bombay; estimated cost of construction £2,000,000.

6. The Madras Railway was opened for Traffic as far as Arcot a distance of 68½ miles on the 1st July 1863. To Vellore on the 1st of May 1867 and to Gurnettam on the 15th May 1868. Leaving the Arcot station at Arcot, the Line crosses the Palar River at Tiruvallam by a granite bridge of 86 arches, thence keeping the left bank of the Palar till near to Ambur, where it will cross that river and continue along its right bank to about 10 miles west of Vandambuddy, whence the Line leads southerly to the foot of the Shervaroy Hills. It passes near to Rukm on to Ombabara; thence to Puthugam and terminates at Raypet. The whole length of the Line is now under construction.

OBJECTS OF THE COMPANY

The object of this Company is to afford Railway communication to the important provinces of Southern India, lying to the South of the existing Madras Railway including Tanjore Trichinopoly, Madurai, Tinnevely Coimbatore Salem and Trichinopoly, being the most populous and fertile districts in the Madras Presidency.

The operations of the Company for the present are confined to the construction of a line from Nagapattinam to Trichinopoly a distance of 78 miles. It is intended that there shall be stations at the following places —

Nadammangalam, Madhavangalam Tanjore Korravai, Tiruvai, Beedakoor all in the Province of Tanjore.

From Trichinopoly it is proposed that the line should hereafter extend northwards to join the Madras Railway about Erode and southwards to Tuticorin.

The works on the Line have made rapid progress and it is probable that the Line may be ready to be opened for Traffic by September 1861. If deemed advisable the first 18 miles from Nagapattinam to Tiruvai might possibly be opened some months earlier.

The Electric Telegraph has been opened to the public since 31st May 1860. The stations are Nagapattinam, Nadammangalam, Tanjore and Trichinopoly and the terms are the same as a single distance rate on the Government Line.

RED SEA AND INDIA TELEGRAPH COMPANY.

25, MOOREHEAD STREET, E. C. LONDON, 2nd September 1889

Notice is hereby given that this Company will be prepared to transmit Messages for the Public on and after the 1st of October, and till further notice, between ALEXANDRIA and Aden, and that the following scale of charges has been fixed for through Messages over this portion of their line, viz.

For a Message of Twenty words, including the address—

From Alexandria to Suez	4s
" " " " " " " "	11s
" " " " " " " "	21s
" " " " " " " "	40s

The Directors have entered into a provisional agreement with the Electric and International Telegraph Company for the transmission of their Messages to and from Alexandria, and Agents have been specially appointed for that purpose.

Arrangements have also been concluded with the Indian Government and the P&O. and Oriental Steam Navigation Company with regard to Messages between INDIA and ADEEN.

The only routes at present available between this Country and Aden are those via Marseilles and Trieste, but the Mediterranean Cable Company expect shortly to open their new line to Malta whilst there is every probability that a direct communication with Alexandria will be established through Constantinople in the course of a few weeks.

In the mean time Messages for the Red Sea, India, Australia, or China can be despatched from any Station of the Electric and International Telegraph Company, via Trieste or Marseilles, at the following rates.

For a single Message of not exceeding Twenty words, including the address—

From England to Suez (including the charge to Alexandria)	80	17	0
" " " " " " " "	1	4	0
" " " " " " " "	1	14	0
" " " " " " " "	3	12	0
" " " " " " " "	3	17	0

Half the price of a single Message being charged for every Ten words or fraction of Ten words in excess.

Thus, for a Message from England to India of from Twenty to Thirty words, the charge will be 84s 6d, from Thirty to Forty words, 88s 12d.

Due Notice will be given of the Tariff via Malta as soon as the line opens into operation.

Messages for Australia and China will be forwarded by post from ADEEN.

Messages from INDIA, with the full payment due upon them, at the above rates, will be received at any of the Government Telegraph Stations in that country, and forwarded by Telegraph to BOMBAY, and thence, by the next opportunity to ADEEN.

Messages from AUSTRALIA and CHINA must be sent by Steam to the Company's Representative at ADEEN, and Deposits will be received at the Office of the Electric and International Telegraph Company at Leithway, in security for the payment of such Messages by the parties receiving them in England.

All Messages will be forwarded by the first vessel leaving either of the Company's Terminal Stations, ALEXANDRIA or ADEN.

The Company will not be responsible in any case for delays arising either from the absence of such means of transmission, or from any interruption in the working of their Telegraph, or from any other cause.

2. In order to provide as far as possible against mistakes in the transmission of Messages by the Electric Telegraph, every Message of any sequence ought to be **REPEATED** by being sent back from the Station at which it is to be received, to the Station from which it is originally sent.

Half the usual price for transmission will be charged for repeating the Message.

Any further information may be obtained at the Company's Office.

For Rules for the transmission of Messages by the Electric Telegraph, &c.

THE UNIVERSITY OF CHICAGO

When boys of average ability struggle to keep up in the classroom, they are often labeled as "slow" or "below average." This label can be a self-fulfilling prophecy. If a boy is labeled as "slow," he may start to believe it and stop trying to improve. This can lead to a cycle of failure and low self-esteem. It's important for teachers to provide individualized support and encouragement to help these boys succeed.

### Invalid Establishment.

Part B. General, 26th July 1907

**Art. 262 of M.R.**—The Right Hon'ble the Governor General of India in Council is pleased, under instructions from the Hon'ble the Court of Directors, to promulgate the following Rules to be observed at the same Provisions for the transfer to the Invalid Establishment, of Officers who may be desired to be sent for further service.

1. The Invalid Establishment will consist of

1st.—The Invalid Battalion.

For Officers who, although disqualified for further active service, are still equal to the discharge of garrison duties.

2d.—The Invalid Pension List.

For Officers disqualified for both active and garrison duties.

3. Officers who, from age, wounds, or decline of health, become unfit for active service, are eligible for transfer to the Invalid Establishment, provided their conduct and habits are such as to entitle them to the character of that Institution, which is designed as an honorable retreat to the worn out or disabled, but deserving Officer.

G. G. C. M.  
June 1907.  
No. 11.

The Commander-in-Chief directs it to be noticed, that application on form 100 for the transfer of their own request to the Invalid Battalion is to be made to the Invalid Pension List, and the provisions of para. 2 of G. G. C. M. No. 11 of 1907 (superseded by G. G. C. M. No. 11 of 1907) are required to be submitted under their signature to the Right Hon'ble the Governor in Council in the manner prescribed in para. 4, Section C.I., Article 1, Regulation of the Army.

4. Officers who may be desirous of being transferred to the Invalid Establishment, will be required to appear before the standing Medical Commission at the Head Quarters of the Division, provided over by the Commanding Officer, or to be sent also by the Medical Commission, forwarded with a report of their case prepared by the Medical Officer to whom they may have been attached. The Commission is to enquire rigidly into each case, and should it be satisfied of the soundness of the Officer, it is to forward its opinion to certify either that the applicant is permanently disqualified for the performance of further active service but is still equal to the discharge of garrison duties, or that he is "permanently disqualified for the performance of both active and garrison duties, as the case may be."

5. The applicant, if reported equal to the discharge of garrison duties, will then be required to proceed to the Presidency to be finally examined by a Medical Officer to be specially appointed for the purpose, or by a special Medical Commission, as may from time to time be ordered.

6. After this final examination the Report on each case, accompanied by the Certificate of the Medical Officer, is to be forwarded to the Head Quarters, to be submitted to Government with the opinion of the Commander in Chief.

7. In the event of the Commander in Chief being led to believe that any Officer's health is so thoroughly broken as to preclude all hope of his being able to perform further active service in India, such Officer shall be directed to appear before the standing Medical Commission at the Head Quarters of the Division. If the Commission is of opinion that the Officer is permanently disqualified for active military duties in India, and this opinion is confirmed at the final examination at the Presidency, the Government on receiving a Report on the case, which is to be prepared and submitted as directed in para. 2 to 4, will place the Officer on the Invalid Establishment, notwithstanding that he may not himself have applied to be transferred from the Invalid List. Such transfer will, however, be subject to the approval of the Hon'ble the Court of Directors, and until the receipt of such approval, no promotions will be made in accordance to the Officer as placed on the Invalid Establishment.

Art. 263 of M.R.—The following Extract from a Military Despatch from the Right Hon'ble the Secretary of State for India, is published in General Orders.

Despatch dated 2nd December 1906, No. 40

2. The will understand from this despatch that no Officer not entitled to a pension under existing Regulations, should be transferred to the Invalid Pension List.

3. II. The vacation of all Offices shall take place after they have been held for five years. It will be in the discretion of the respective Governments of the three Presidencies to re-appoint for a second or even a third term of five years, when the Government may consider that the re-appointment is required for the good of the Service.

This rule is inapplicable to General Officers and Brigadiers, whose term of Command is limited by existing regulations to one term of five years.

Present occupants of Staff Appointments will not be affected by this rule until the expiration of five years from the 1st of March 1884, when the rule limiting the tenure of Staff Employment was published in General Orders; and in consequence of promotion, they are required to vacate the appointments sooner under the regulations of the Service as already in force.

Brigadiers and Staff Officers filling appointments which under existing regulations cannot be held with the rank of Major General, shall, as a general rule, vacate their Commands and Appointments on promotion to that rank.

Officers holding such Commands and Appointments who have already been promoted to complete the permanent establishment of General Officers, are to vacate their Commands and Appointments under the regulations heretofore in force. But in consideration of the short of the late promotions on them, they will be permitted to continue in their respective situations for a period of six months from the 1st of September 1884, the date of the receipt of the Hon'ble Court's despatch; provided that in the case of Brigadiers their term of Command shall not by this indulgence be extended beyond the limit of five years.

No. 225 of 1885.—The following General Orders by the Right Honorable the Governor General of India, in Council, are published.

**GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.**

**PORT WILLIAM, 24th May 1885.**

No. 709 of 1885.—His Excellency the Governor General in Council is pleased to direct the publication in General Orders of the following Royal Warrant, received with a letter from the Right Honorable the Secretary of State for India, No. 113, of the 7th April 1885, prescribing Rules under which Commandant Officers are to be recommended for promotion in Her Majesty's Indian Military Forces:—

Whereas, we have judged it expedient to revise those parts of Our Royal Warrants of the 14th day of October 1854, and 1st day of November 1864, which regulate the promotion and retirement of Commandant Officers in Our Army and Ordnance Corps, Our will and pleasure is, that from the date of this Our Royal Warrant Our Governor General in Council shall govern himself by them Our rules in recommending Commandant Officers for promotion in Our Indian Military Forces.

## **PROMOTION.**

1. That the rank of Field-Marshal be given without reference to seniority.
2. That there shall be a fixed establishment of General Officers, viz:—

|                     |     |
|---------------------|-----|
| Generals            | 50  |
| Lieutenant-Generals | 50  |
| Major-Generals      | 145 |

2. That Colonels may be appointed, without regard to seniority, to command as Major-Generals, with temporary rank; and if they shall have conducted themselves to our satisfaction, such temporary rank, after having been held for five years in peace, or for any shorter period in war, may, upon the recommendation of Our Governor-General in Council, be made permanent. That the temporary rank of General and Lieutenant-General may also be given, whenever the circumstances of the Service require it, and may be made permanent in a similar manner.

3. That every vacancy on the fixed establishment of General Officers shall be filled by the promotion of the Senior Colonel qualified to succeed to the rank of Major-General and to be placed on the fixed establishment, under the regulations now in force; or by a supernumerary Major-General, as provided in Clause 5.

4. That, in addition to the Colonels promoted by Seniority to be Major-Generals and those promoted after having held temporary rank under the Regulation in Clause 2, Colonels shall be eligible for promotion to the rank of Major-General, and Major-Generals to the rank of Lieutenant-General, and Lieutenant-Generals to the rank of General, for distinguished services in the Field.

In the case of Officers promoted to the rank of General Officers, as a reward for distinguished service in war, the recommendation, in which the services of the Officers shall be detailed, shall be published in the General Orders of Our Indian Military Force, and in the *London Gazette*.

5. That all Colonels promoted to be Major-Generals after five years' employment in responsible command with the temporary rank of Major-General, under the provisions in Clause 2, and all Colonels promoted to be Major-Generals for distinguished services in the Field, shall be placed on a supernumerary list of Major-Generals, and shall not be reckoned as part of the fixed establishment until the time when they would have attained the rank of Major-General by seniority; that is to say, until the Colonel who originally stood next senior on the Colonels' list to the Officer promoted out of his term has become a Major-General, after which the next vacancy will be filled by the transfer of the supernumerary Major-General to the fixed establishment. The Major-Generals who have already been promoted out of their term, and would not yet have succeeded to that rank by seniority, shall be considered as coming under this rule.

The Supernumerary Major-Generals, when absorbed into the fixed establishment, shall preserve the seniority which they acquired when, after a period of qualifying service with temporary rank they were first conferred on prominent Major-Generals on the Supernumerary list, and shall rise by that seniority to be Lieutenant-Generals or Generals. General Officers promoted for distinguished services in the Field will retain their seniority from the date of their promotion, as stated in the *London Gazette*.

6. That three separate lists of General Officers be drawn in the Army List of Our Indian Military Force, the first containing the names of those on the fixed establishment; the second, those who, having been promoted out of their regular term, are supernumerary to the fixed establishment; and the third, those who have retired from the service with the honorary rank of General Officers.

7. That the rank of Colonel be given to Officers, after serving for five years with the rank of Lieutenant-Colonel, in the actual command of Regiments, or for the same period as second Lieutenant (absent of Regiments, or on the Staff, in the following situations:—viz. Adjutant-General, Quarter-Master-General, Deputy Adjutant-General, Deputy Quarter-Master-General, Secretaries to the Government of India in the Military and Public Works Department, Secretaries to the Military Department to the Governments of Madras and Bombay, to the Chief Commissioner of the Punjab, the Commissioner in Mysore, and the Residents at Hyderabad; Judge-Advocate-General, Comptroller-General, Deputy Comptroller-General, Inspector-General of Ordnance, Superintendent of the Ordnance Manufacturing Department, Chief Engineer, Superintending Engineer, Surveyor-General of India, subject always to the approval of the Governor in Council and Commander-in-Chief of the Presidency to which the Officer belongs.

8. That Regimental Majors, who are Second Lieutenant-Colonels, falling into the Command of Regiments in the absence of the Lieutenant-Colonel, shall, on attaining the rank of Regimental Lieutenant-Colonel, reckon the period commencing from the completion of the first month of such temporary command, as part of the five years required to qualify for the rank of Colonel.

9. That the rank of Colonel be given to Officers who obtain the rank of Second Lieutenant-Colonel for services in the Field, after eight years of actual service with that rank.

10. That in cases where a Regiment may be so divided as to constitute two distinct commands, and one portion may be under the command of the Regimental Major, who is also a Second Lieutenant-Colonel, and in cases where a Second Lieutenant-Colonel may be in command of a small force of different Corps, a discretionary power shall be vested in our Commander-in-Chief in India, subject to the approval of Our Governor-General of India in Council, to allow such service, or portion of such service, to count as part of the qualifying period for promotion to the rank of Colonel.

11. That Lieutenant-Colonels appointed to Civil Stations under Government or on other duty of this Our South Western shall be promoted to the rank of Colonel after eight years' service in the Senior rank, provided the portion of the Civil appointment be considered by our Governor-General of India in Council and Com-

A reference on the subject having been made to the General Commanding-in-Chief, it has been ruled that leave of absence taken by a Major Lieutenant Colonel who has obtained that rank for service in the Field, is to reckon as part of the eight years' service required under the Royal Warrant of the 21st January 1860, to qualify for the rank of Colonel.\*

No. 105 of 1859.—The following General Orders by the Honourable the President of the Council of the Right Honourable the Governor General of India in Council, are re-published for the information of the Army.

GENERAL ORDERS BY THE HONOURABLE THE PRESIDENT OF THE COUNCIL OF THE RIGHT HONOURABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Fort William, 26th March 1860.

No. 253 of 1859.—The Honourable the President in Council is pleased to direct the publication of the following Military Letter from the Right Honourable the Secretary of State for India, No. 25, of the 16th ultimo, and of the revised Royal Warrant therein referred to:—

#### MILITARY

No. 25.

INDIA OFFICE, London, 16th February 1860.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD.—Your Military Letter No. 78, dated 11th June 1859, forwarding Memorials from certain Members of the Medical Service, and an appeal from the head of the Medical Department in Bengal against the provisions of the Royal Warrant of 1st February 1859, has received my attentive consideration.

2. In compliance with your urgent request, I have undertaken the revision of the Royal Warrant above referred to, the promulgation of which in India has been deferred by your Government pending the present reference; but the subject required very careful consideration, and involved correspondence with other Departments of Her Majesty's Government, and hence a considerable delay has unavoidably occurred in replying to your letter.

3. I have now, however, the gratification to announce to you that Her Majesty, being desirous, as far as possible, to maintain the designations and ranks in all branches of the Military Medical Service, has been pleased to issue a fresh Warrant, applicable in all respects to the rank of the Medical Officers of the Indian Armies with that issued for the British Medical Service in the Royal Warrant of 1st October 1858.

4. The grades of Assistant Surgeon, Surgeon Major, Deputy Inspector General and Inspector General are now on precisely the same footing as to designation and relative rank in both Services.

5. But the designation of the Officers now styled "Director General of the Medical Department" in each of the three Presidencies is changed to "Principal Inspector General," and the Officers holding these appointments will, in accordance with the practice in British Service, take Army rank as Inspector General, according to their standing in that rank.

6. The retention of the designation now held by these Officers is strongly advocated in your Dispatch, but after mature consideration, Her Majesty's Government have decided, that it is important to continue to the three Officers at the head of the Medical Departments of the Armies of Bengal, Madras and Bombay, the same title which designates the Officer related to control the whole Medical Department of the British Army in all parts of the World.

7. Before entering on the discussion of the other subjects of complaint brought forward by the Medical Officers of the Indian Services, I must observe that the object of the Royal Warrant of the 1st February 1859 was not to regulate the pay or retiring allowances of the Medical Department, but to fix the rank and precedence

relatively to those of the British Army. This object has now been attained, in a manner which will, I trust, be satisfactory to the Indian Medical Service, in every grade of which it has secured additional relative rank.

5. I pressed to notice in detail the subjects brought forward in the letter addressed to you by Dr. Fawcett, the Principal Inspector General of Bengal:—

1st. It is observed that your Government have offered no recommendation as to the various subjects connected with

Its propositions were—  
1st. "That the Medical Officers of Her Majesty's Indian Forces may be placed, in point of all advantages of relative rank, far enough pay and retiring allowances, and in all other respects, upon a par with those of Her Majesty's British Forces serving in India."

promotion, effective allowances, far enough pay, and retiring pensions, brought forward in the Memorandum. The consideration of these subjects is deferred for the present, but will be taken up in connection with the question of the re-organisation of the Army.

2ndly. "That the Director General of the Medical Department and the Inspector General of Hospitals may retain their present designations; that the Director General shall rank as Major General for appointment; that the Inspector General shall rank as Colonel; that the Superintendent Surgeon shall receive the designation of Deputy Inspector General, ranking on appointment with Lieutenant Colonel and with the Deputy Inspector General of Her Majesty's British Army after five years' service in India in this rank as Colonel."

3d. This subject has been disposed of in the earlier paragraphs of this Despatch.

3d. In Lord Stanley's Despatch, dated 1st June 1880, No. 187, paragraph 21, you have been informed that Her

Majesty's Government are disinclined to alter, in this respect, the provisions of the Warrant. So long as authority in the inevitable rule of promotion to substantive rank in the other branches of the Service, it is considered desirable to maintain the same principle in the Medical Department, distinguished service being rewarded, in all branches alike, by Secret promotion and the Order of the Bath.

you have been informed that Her Majesty's Government are disinclined to alter, in this respect, the provisions of the Warrant. So long as authority in the inevitable rule of promotion to substantive rank in the other branches of the Service, it is considered desirable to maintain the same principle in the Medical Department, distinguished service being rewarded, in all branches alike, by Secret promotion and the Order of the Bath.

4th. In accordance with the sanction conveyed in Lord Stanley's Despatch, No. 188, dated 1st June 1880, (paragraphs 18 and 19.) the two years of Medical practice in the rank of Surgeon, qualifying for promotion to a higher grade, may be performed either in the Civil

or Military branch of the Service.  
5th. "That two years of exclusive Military duty in the rank of Surgeon may not be required to qualify a Medical Officer of that rank for promotion."

6th. On this subject I would refer to my remarks under the last head.

6th. "That Medical Officers now in the Service may be at liberty to retire, either upon the existing rates of pension, or upon those held down in the Warrant of 1st October 1868, for the Medical Officers of Her Majesty's British Army."

7. 110 Copies of the revised Warrant are transmitted to your Government by the present Mail.

Dated 21st January 1880.

Whereas, we have taken into Our consideration the recommendations of the Commission appointed by Our authority to inquire into the Regulations affecting the military service of Our Military Forces and the Medical treatment of the sick and wounded of Our Army; Our will and Pleasure is, that from and after the date of this Warrant, the following Rules shall be established for the future admission, promotion, and relative rank and allowances of the Medical Officers of Our Indian Military

1. The grades of Medical Officers in Our Indian Military Forces shall be four in number, viz:—

1. Inspector-General.
2. Deputy Inspector-General of Hospitals.
3. Staff or Regimental Surgeon; who after twenty years' service in India in any rank, shall be styled Surgeon Major.
4. Staff or Regimental Assistant-Surgeon.

2. No Candidate shall be admitted to the competitive examination for a Commission in the Medical Department of Our Army who does not possess such a certificate or certificates as would qualify a Civilian to practice Medicine and Surgery.

3. No Assistant Surgeon shall be eligible for promotion to the rank of Surgeon until he shall have passed such examination as Our Principal Secretary of State for India in Council may require, and shall have served in India with the Commission of Assistant-Surgeon for five years, of which two shall have been passed in or with a Regiment.

4. A Surgeon, whether on the Staff or attached to Regiments, must have served ten years in India, of which two must have been passed, with the rank of Surgeon, in or with a Regiment, or as a Civil Surgeon, before he will be eligible for promotion to the rank of Deputy Inspector-General of Hospitals.

5. A Deputy Inspector-General of Hospitals must have served three years in India before he shall be eligible for promotion to the rank of Inspector-General.

6. In cases of distinguished service however an Assistant Surgeon may be promoted by brevet, without reference to seniority; and in such cases, with a view to insure the responsibility attending to an appointment made out of the regular course of promotion, the recommendation in which the services of the Officer shall be detailed shall be published in the General Orders of our Indian Military Forces and in the Gazette in which his promotion appears.

7. All promotion from the rank of Surgeon to that of Deputy Inspector, and from the rank of Deputy Inspector to that of Inspector, shall be given by selection for ability and merit and the grounds of such selection shall be stated to Us in writing, and recorded in the office of the Secretary of State for India in Council; the selection for the grades of Deputy Inspector being made from the whole rank of Surgeons, whether styled Surgeons or Surgeons-Major.

8. With a view to maintain the efficiency of the Service, all Medical Officers of the rank of Surgeon Major Surgeon, or Assistant Surgeon, shall be placed on the Retired List when they shall have attained the age of 55 years, and all Inspectors General and Deputy Inspectors General when they shall have attained the age of 65 years.

9. The relative rank of the Medical Officers of our Indian Military Forces shall be as follows:—

Staff or Regimental Assistant Surgeon as a Lieutenant, according to the date of his Commission; and after six years' service in India as Captain according to the date of the completion of such service.

Deputy Inspector General as Lieutenant Colonel, according to the date of his appointment.\*

Inspector General of Hospitals as Brigadier General, according to the date of his appointment; or with an army in the field, or after three years' service in India as Inspector General, as a Major General, from the date of his joining such army in the field, or according to the date of the completion of such service.

10. # **QUEEN'S MILITARY FUND.**

*Regulations of a General Military Fund, for the benefit of Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1830.*

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the above named Fund was established in the year 1830, for the purpose of enabling those in want of and respectability, the Families of deceased Officers in Her Majesty's Service in India, who may have been left destitute; and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions; and also of providing relief in such cases as may require it, until they can be conveniently sent home.

His Excellency General Vincent Gough, G. C. B., Commander-in-Chief in India in the year 1844, with reference to several cases, arising out of the death of Officers on the voyage from India to England leaving their Widows and Children in circumstances of great distress, and with advertence also, to the manifest justice of allowing all Widows and Children of Officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund,—directed the introduction of Rules 21 and 22, after they had been proposed for the consideration of the whole body of Subscribers and carried by a large majority.

It having since been found advisable to make some alterations and additions to the Rules and Regulations, in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gough, K. C. B., assembled a special Board of Officers at Buxar in June 1861, for this purpose, and directed the minute of their Proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations proposed.

In the year 1864, a further modification of these Rules became necessary and the alterations, as approved by the body of subscribers in India, with but one or two exceptions, were embodied with the sanction of His Excellency General the Honourable G. Anson, Commander-in-Chief in India, in the original code sanctioned by General Sir W. M. Gough, in December 1862.

Rule 26h.—That in order to obviate the difficulties which would arise from the occasional remote situations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor General in Council was pleased to order and direct when the Fund was established, that Bills may be granted to the Paymaster of Her Majesty's Regiments by the Governments of Madras and Bombay, or the Government of Bengal payable at sight, to the Agent or Agents of the Queen's Military Fund, acting for the Committee of General Management, thereby avoiding commission, double Agency, and risks of exchange.

**Rule 7th.**—That all grants of assistance from this Fund shall be reported and assigned by Committee of subscribers, as hereby directed.

**Rule 8th.**—That in order to ascertain the circumstances of any Widow or Family who may become destitute by the death of any Regimental Officer, such widow shall Memorialize or represent the case of herself and family, through the Commanding Officer of the Corps the casualty occurred in, in order to its being brought to the consideration of a Committee, and the Commanding Officer shall, as far as his knowledge will enable him, state his opinion of any case so revived.

**Rule 9th.**—That whenever there may be mixed Corps, of Her Majesty's

Service, or more than one stationed together at the same time, every application for relief from this Fund shall be heard and decided on by a Station Committee, composed, as equally as possible, of Officers from such Corps present, being Subscribers to the Fund

**Rule 10th.**—As it may often happen that Officers die while the Corps they belong to is stationed by itself or remotely detached, it shall be in the power of every Commanding Officer of a Regiment so situated, to assemble a Committee of any five Officers being subscribers to hear and decide upon the case of any Widows and Children so become destitute, and seeking relief from this Fund. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a special Committee to report on the case of any Lady who may become a Widow, whilst the Regiment to which her husband belonged, shall be at another distant station, or on Service, beyond Sea.

**Rule 11th.**—That such station, Regimental or special Committee as the

Paymaster authorized to afford immediate relief to prevent distress or inconvenience.

case shall be having duly examined into the circumstances of the party seeking relief shall report their opinion on and recommend the amount to be granted whether for passage money or maintenance strictly in conformity with the Regulations enacted. The opinion and recommendation of such Committee shall be forwarded to the

Honorary Secretary Army Head Quarters by the Officer Commanding the Corps in which the casualty may have occurred, and the Paymaster of the Regiment under the above authority on at once address to the Widow the amount of "Maintenance" awarded by the Committee, releasing himself by a deduction from his next regimental remittance or by drawing a Bill on the Secretary; the residue of the award to be adjusted by the Secretary under the sanction of the General Committee of Management.

**Rule 12th.**—The Sub-Committee at Madras and Bombay will in cases of special award in these presidencies, on satisfying themselves with the accuracy of the statements laid before them, draw upon the Honorary Secretary at Army Head Quarters for the amount which may be awarded; but in the final settlement of the accounts of such Sub-Committee, the General Committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down.

**Rule 13th.**—The Sub-Committee will, on drawing for any sum on the Honorary Secretary in cases of special awards, transmit the Report of the Station Committee as well as their own opinion and explanation of the award to the Secretary, and they will afterwards, as soon as possible, transmit the proper Receipts and Certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

**Rule 14th.**—The object of this Fund being clearly confined to assisting those Families of deceased Officers, and with a view of preventing those painful appeals for assistance to the Public, at once so humiliating to respectable individuals and the Queen's Service in India, it is anxiously hoped that all ranks of Staff and Regimental Officers will support it.

**Rule 15th.**—That to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no Widow continuing to reside in this country after the death of her husband, can except any provision or pension for herself or children from the Fund further than is stated in the 7th Clause of the Schedule of awards. It is also declared that no Widow is entitled to passage money or allowances for travelling, unless she actually proceed to Sea or on her journey in the manner for which any allowances may have been drawn, and should she have received such allowances, she will be required to refund; and further, that no widow, under any circumstances, shall be entitled to any assistance from this Fund, unless the application shall be made in the usual form within six months after the demise of her husband.

**Rule 16th.**—Orphan Children are eligible for the benefits of this Fund, but awards for them must be specially made by a station or Sub-Committee and sanctioned by the Commander-in-Chief of the Presidency who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

**Rule 17th.**—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an Annual Account of the Receipts and Disbursements of this Fund, to the Adjutant General of Her Majesty's Forces in India; and that that Officer be applied to, to circulate the same amongst the subscribers, and the several Officers of Government at the three Presidencies.

**Rule 18th.**—That Commanding Officers of Her Majesty's Regiments be requested to pay particular attention to making the regular quarterly remittances to be made to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management Army Head Quarters, who is requested from time to time to apprise Commanding Officers whenever any Corps may fall in making such remittances.

**Rule 19th.**—That no general Rule or Regulation of this Fund shall be altered, except recommended by the General Committee, and approved by a majority of the subscribers.

**Rule 20th.**—In taking the opinion of the Regimental and Staff Officers of Her Majesty's Forces in India, a very general wish was expressed and carried by a majority that all Widows of Subscribers should have their passage to England, &c. &c. defrayed. As an Officer seems to be a Subscriber on leaving India, all claims on the Fund must be in like manner from the same period; but an Officer going to Sea for the benefit of his health, being entitled to his Company's allowances will be considered as a subscriber during his absence.

**Rule 21st.**—That all Widows of Officers, who were subscribers to the Fund, shall be entitled to the amount granted to Widows and Children for passage money to England, if their husbands die on their passage to England or during their absence on Sick Certificate, at the Cape of Good Hope, the Mauritius, New South Wales, or Australia.

**Rule 22nd.**—That all Widows of Officers, who were subscribers to the Fund, shall be entitled to the amount granted to Widows and Children for passage money to England, if their husbands die on their passage to England or during their absence on Sick Certificate, at the Cape of Good Hope, the Mauritius, New South Wales, or Australia.

**Rule 22.**—That no special grants in cases of great distress (not provided for in the Regulations of the Fund) shall be passed by the General Committee without the sanction of the majority of subscribers; which sanction is to be declared in the General Abstract of Accounts, published annually for the information of subscribers.

4. Applications for loans must only be for such sums as can be repaid by monthly instalments within three years.

6. When a debtor dies, the balance (after discharging his own debt in full) of any Policy of Assurance upon his life will, at the discretion of the Directors, be detained as security for the re-payment of the balance of any account for which he may be responsible as a debtor, or of any sum due by him on which the Bank may have a lien or otherwise.

The attention of the Assurance Office in India, is invited to an entirely new set of Tables constructed for the especial use of the Church of England Company. The rates are quite as low as the average rates of the cheapest office in India. They have, in fact, been reduced to the fullest extent compatible with the stability of the Institution, and the security of its Policy holders.

The distinguished success which attended the establishment of the CHURCH OF ENGLAND ASSURANCE COMPANY, in England, Scotland and Ireland, induced the Directors several years ago, to open Branch Offices of the Company, at Calcutta and Madras, with a view of extending the peculiar advantages of this Establishment to Europeans residing in all parts of India. They felt satisfied that these advantages would be duly appreciated by the Anglo Indian public, and that the same devoted success would attend the Company's establishment in the East, and the same powerful support to be given to it by the Clergy and Laity in the three Presidencies of India, as had already marked its progress in all parts of the United Kingdom in Europe.

These anticipated prospects of success, the Directors have the gratification of being enabled to state have been fully realised.

The high credit enjoyed by the Company in Europe, and the connection of many of its Directors with men of eminence and influence in India, have enabled the Company to proceed in a continued career of prosperity such as to satisfy the most sanguine expectations of all persons interested in its welfare.

In every Institution of this kind the two main objects of policy holders are, **SECURITY** and **BOONHOMY**.

The highest attainable economy has been afforded to policy holders by means of an entirely new set of Tables computed for the especial use of the Indian Branches of this Institution. No labor or expense has been spared in the construction of these Tables and the Directors have much gratification in directing attention to them, being confident that they will meet the views and satisfy the expectations of the Assurance classes in India.

The security of Policy holders in India is made complete by the responsibility of the whole body of Proprietors, both in England and in India, to the extent of the subscribed capital; whilst, for their immediate protection and advantage, an adequate fund has been invested in Indian securities, so as to be always immediately available, to provide for whatever securities may arise. The premiums may be paid either annually, half-yearly or quarterly; and Policies, which have become forfeited by non-payment of the premiums, may be revived within 12 months, upon proof of the agreeable state of health, and the payment of the premiums in arrears with interest thereon, but without the creation of any fine. The age will be admitted in all cases where satisfactory evidence is furnished in regard to it, previously to the Assurance being completed.

After their arrival in England, Assurers will, if in approved health, be permitted during the remainder of their abode there, to pay their Renewal Premiums according to the reduced scale for Great Britain.

Policies effected by parties on their own lives, and assigned as a dead stock security to others will not be rendered void in the event of death by suicide, duelling, or the hands of justice, claims will become payable within three months after satisfactory proof of death.

#### TABLES.

The first two Tables are for the use of the Civil Servants of the Company, of merchants, clergymen and others, who are not liable to the same exposure to the injurious effects of the climate and other risks to which Military Officers are subjected.

Table I. contains the rates for Assurances on the Lives of such persons for **SHORT TERMS**, varying from one to seven years.

Table II. contains the rates for Assurances on the Lives of such persons for the **WHOLE TERM OF YEARS**, at an **EQUAL RATE** of premium, payable annually during life.

Tables III. and IV. are for the use of Officers in the Army and Navy, and others exposed to military risks. They are precisely analogous to Tables I. and II. and the same observations will apply to them respectively.

In cases where Assurances are to be effected on the Lives of persons exposed to an equal, or nearly equal degree to the effects of the climate, as Military Officers, but not liable to be killed in action, a rate of premium will be charged according to the nature of each particular case, it will, however, exceed the rate for Civilians, but will in general be less than the rate for Military Officers. The position for every such case may be ascertained by application to the Agents.

When the party resides in, or is about to visit any particular unhealthy part of India, or is afflicted with gout, hernia, or any slight chronic disease, not attended with immediate danger, such additional rate (to be ascertained by application to the Agents) will be charged as the circumstances of the case may require.

No addition to the premium will in any case be made for sea-risk, in passing from any one part of India (including Ceylon,) to another; or in passing to, or from the Cape of Good Hope or England, either by the Overland or Sea route.

DEFERRED ANNUITIES AND ENDOWMENTS FOR INDIA.

## **GENERAL RULES.**

ALL Premiums must be paid in advance—every facility will be given for their regular payment or realisation; but 12 per cent. interest will be charged on all arrears, and the contract forfeited after six months' non-payment of Premium.

The first half-yearly payment of Annuities will be made, if claimed in India, six months, and if in London, 12 months after the expiration of the period of deferment, and parties, whose Annuities have commenced in India will, on their return to England, have to comply with the English period of payment, which is, as above, six months later.

An Officer proceeding on furlough and having subscribed for a Deferred Annuity, may at his option, continue his payments during furlough, the Annuity becoming payable at the same terms as if he had remained in India, or he may discontinue his subscription during the period of furlough, in which case the period of deferment will be extended for an equal time, or lastly, he may surrender his contract to the Society, who will be prepared to purchase it at a fair valuation.

The Annuities will be paid in London at the Exchange of  $\text{£}1$  per Rupee.

For the present the Directors have limited the Annuities on any one life to  $\text{£}1,000$  Rupees, and the Endowments to  $\text{£}30,000$  Rupees.

Forms of proposal and full information may be obtained at the offices of the Society in London, and of the Secretaries and Agents in India.

## **LIFE ASSURANCE.**

The advantages of this Society are as follows:

A lower and more economical scale of premiums for Life Assurance than hitherto demanded by the established offices in India.

The Tables of Premium have been accurately prepared, after reference to all the various and best Reports and statistical Documents recently available, and particularly, that last prepared by Mr. Griffith Davis in 1866, based on Deane and Miller's Army Lists, and the investigations of Mr. Westhead, Actuary of the National Loan Fund Life Assurance Society.

To the Actual or mathematical risk thus defined, an ample margin has been added to the scale of Premiums for the safety of the Society, with no benefit of the Annuity, and it will be found by reference to the calculations that, notwithstanding a considerable per centage thus added, the rate of Premium will be cheaper at all ages to the holders of Policies than those hitherto offered to the Public in India.

The whole of the Funds of this Society in India at present are invested in Government Paper. The Directors are limited to such investment, and to pass on security of Government Paper or Bank of Bengal Shares only.

All Holders of Policies in India on the profit scale, who may have paid five Annual Premiums, will be entitled at the expiration of the fifth year to a year's profit, calculated on the average of the preceding five years, such profit to be paid in cash, or to go in discharge of the future Premiums payable, or to be added to the sum assured by the Policy at the option of the Holder, after the calculation of the profits shall have been made in London.

After the expiration of 1881, the profits will be declared annually, and the payers of five complete Annual Premiums, be regularly entitled to a participation therein with a like option as to the mode of application.

Parties assured in India for life shall, on their return to England for a permanency, and on the first half-yearly Premium becoming due, be entitled to come upon the English rates of Premiums, and be placed under the rules and conditions of the society there obtaining.

All parties assured for life or for terms other than for life, whatever the number of payments or the permanency or otherwise of their residence in Europe, shall after completing a full year from the date of quitting India, and on the first half-yearly Premium thereafter becoming due, be entitled to a reduction of their Premium to the English rates, and reduced rates being continued during the further residence in Europe.

Parties in the Military Service holding Civil Offices, and thus subject to no greater risk, than members of the Civil Service, will be charged at the rate of Premium of a Civil life, but on return to their Military duties the higher rate will be charged—due notice of such return must be given to the Secretaries.

Premiums are payable half-yearly in advance, but arrangements may be made with the Secretaries for the payment of the Premiums annually or for a given number of years.

Assurance will be computed from the date of the Certificate, but no Assurance to be binding on the Society, until the first six months premium shall have been actually paid to the Secretaries.

Policies becoming claims upon the Society will be paid three months after satisfactory proof of the death of the party assured shall have been received at the Society's Office.

Policies granted by the Indian Branch, will be paid in India or London, at the option of the Holder, at the exchange of two Shillings per Company's Rupee provided notice shall have been given to the Secretaries, at least three months previous to a lapse occurring, of the place at which it is desired the payment may be made. If no notice shall have been given, the payment will be made at the place at which the last Premium previous to lapse may have been paid.

All payments or receipts on Accounts of the Society of Sterling money in India, or of Rupees in England, will be made also at the fixed rate of two Shillings per Company's Rupee.

In case of lives of more than ordinary hazard, an increased rate of Premium will be charged proportionate to the risk; such increased rate will be regulated by the prudent attention to justice between the Society and the Assured.

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

Notion of Assignments of Policies will be duly registered at the office of the Agents.

Applications for Assurance to be made to the Secretaries, Messrs. GOSWAMI, SCOTT and Co., who are prepared to grant Policies, to the extent of 10,000 Rupees on any life; approved of by the Directors, and who will afford information regarding the business generally and rules of the Society in Lon-

den, as relates to Assurance on Lives or survivorships, the payment and sale of Annuities and reversionary interests, the granting Indemnities to relatives, children and other ordinary business of the Family Endowment Society.

**Conditions Indorsed on the Policy.**

Policies will become void if the Premiums be not paid within thirty days after the period limited by the Policy for payment; but should proof be given, to the satisfaction of the Directors, that the parties whose lives have been assured continue in good health, the Policies may be revived at any period within six calendar months on the payment of a Fine of one half per Cent. on the sum insured; or at any period within twelve calendar months, on the payment of such a Fine as the Directors may think reasonable.

Policies will become void if the parties whose lives have been assured shall go to any of the following places, viz., Arracan, the Sunderbunds of Bengal, Amoy, the province of Szechu, and all places subject to periodical visitations of the plague; or (not being of the Military or maritime profession at the time the Assurance is effected) shall afterwards enter into or engage in any military, maritime, or other hazardous service or employment whatever unless in each case permission shall have been granted by the Directors, which may be obtained by the Parties paying a Premium adequate to the extra risk; but no additional Premium will be demanded in consequence of the Party whose life has been assured proceeding on public duty in obedience to the orders of his superiors, or in performance of his professional duties, to any of the above exempted places.

Policies will become void in case the Parties whose lives have been assured shall die by duelling or by their own hands, or by the hands of Justice. But the Directors will in such case make such allowances as they may deem reasonable; and if the Policy shall have been assigned to a bona-fide Creditor other than the Society, the Directors will pay such Creditor to the extent of his interest in the Policy, upon satisfactory proof of his interest being given to the Directors.

All Claimants upon Policies must, if required, furnish proof of the death of the party assured, and give such further information as the Directors may think necessary; and reasonable proof will also be required of the age of the Party assured, unless it shall have been previously established and admitted in the Policy or by Indemnities thereon.

In the event of death taking place within the first six months of any year (commencing on the anniversary of the date of the Policy) the Premiums for the next six months will be deducted from the sum assured, it being distinctly understood and agreed upon, that the Premiums for each entire year during the continuance of this Assurance shall in all cases be paid. Policies granted by the Indian Branch will be paid in India or London, at the option of the holder, at the exchange of Two Rupees per Company's Rupee, provided notice shall have been given to the Secretaries, at least three months previously to the place at which it is desired the payment may be made. If no notice shall have been given, the payment will be made at the place at which the last Premium premium to India may have been paid.

All payments or receipts on account of the Society of Sterling money in India or of Rupees in England, will be made also at the fixed rate of Two Shillings per Company's Rupee.

The Directors of the Society have caused investigation to be made with great care into the existing Institutions for Life Assurances, &c. &c. and they trust they have been fortunate in selecting from each what, as a whole, will place their Establishment on the most judicious and satisfactory footing, both to the Proprietors and the Assured. They request particular attention to the rates, which, being founded on the most accurate observations of the duration of human life, are as moderate as is consistent with perfect security.

The plan of this Society is to transact all its business on such terms as to leave in all losses probability, as small, but certain excess of profit on the general result of its transactions. A small portion of that profit is set apart as a compensation to the Proprietors who have advanced the Capital necessary for defraying the unavoidable expenses of the Institution, and who have pledged the subscribed amount of their Capital, in order to afford that responsibility which relieves the Assured from any contingency of loss to which they might be liable without the intervention of such a guarantee.

#### ADVANTAGES OFFERED BY THIS SOCIETY.

1. The Profits are declared in each year on the second Wednesday in May, from which date all persons who may have assured for the whole term of Life on the participating scale, and on whose Policies six complete annual, or twelve complete half yearly original premiums have been paid, are entitled to participate in the profits of succeeding years in either of the modes provided by the Deed of Settlement, viz. by a reduction of the annual or half-yearly premiums as they fall due, or by an equivalent addition to the sum assured by way of a bonus. Each member on his first becoming entitled to participate in the profits, has the option of selecting either of the foregoing methods, and three months from the date of declaration of the profits is allowed for his making that selection, which however, when once determined on, cannot be altered in after years.

2. The practice of an annual dividend, as observed by Mr Babbage, "distributes the profits with more regularity and justice than any other," and is especially advantageous to persons of advanced years who cannot hope to participate in many septennial or decennial divisions, as practised by several other offices.

3. One-fifth of the ascertained profits is divided between the Policy holders and Shareholders—three-fourths to the former, and one-fourth to the latter—the remaining four-fifths are set apart to enter into the average to be struck on the next succeeding year.

4. The following table will show the operation of the reduction allowed by the division of profits for 1850-51, which is equivalent to 40 per cent. On the current annual premium of all policies entitled to participation.

2. From the foregoing explanations it will be seen, that the benefits arising from a participation in the profits are actually experienced (when a reduction of the premium is obtained) at the periods when the seventh, eighth, or thirteenth and fourteenth half-yearly premiums fall due. In the case however of a Bonus to the sum assured being selected, an equivalent sum will be added to the Policy for the current year, being such an amount as the reduction in the premium would purchase as a single payment.

3. Separate Tables for Assurances without participation in profits, both Civil and Military, have been adopted for the whole of life at reduced rates for each person as may prefer a lower rate of premium to participation in the general profits.

4. On return of Assureds to Europe their Premiums are reduced to the English rates both on participating and non-participating Rates.

5. The Society makes a natural distinction between persons exposed to the hazards of Military and Maritime occupations, and those whose occupations are of a Civil nature; but Members of the Military Service holding offices purely Civil, and subject to no extra risk, will be charged the Civil rate of premium only while engaged in duties purely Civil. It will be to the discretion of the Directors in each particular instance to say whether the higher or the lower rate of Premium shall be chargeable, and that discretion will be regulated by the particular circumstances of the case.

6. When application is made for securing a life subject to more than ordinary hazard, an augmented Premium will be charged proportionate to the increased risk, the rate of which will be regulated by the strictest attention to justice between the Society and the Assured, according to circumstances.

7. Premiums are ordinarily payable half-yearly in advance; but Policy-holders are at liberty to make arrangements with the Society to pay their premiums in any amount, in annual or quarterly payments and on short term and non-participating Policies only in monthly payments; premiums also may be paid for a given number of years, viz. 5, 10, 15 or 20. Some persons may wish to avail themselves of a present season of prosperity and adopt the latter course, in which case (although their contribution will cease with expiration of the term they may fix upon) their share of the profits will continue to be added to their Policies annually during the remainder of life.

8. The Parent Institution being in London with similar Establishments in Calcutta, Madras, and Bombay for granting Policies, Premiums, as well as claims, are payable in either country, at the option of the Policy holder.

9. All Policies becoming claims on the Society will be discharged within three months after satisfactory proof of the death, and cause of death of the Assured, shall have been furnished to the Directors.

10. The Directors of the Indian Branches of the Society are empowered to treat for the purchase of Policies for the whole term of life as which Premium shall have been paid for a period of not less than five years, or to advance, if required, on such Policies by way of loan, two-thirds of the estimated value.

11. The Accounts of this Society, after being investigated by Auditors, chosen as well by the Assured as by the Proprietors, are laid before General Meetings convened twice a year in Calcutta for that purpose:—in like manner the Accounts of the Parent Society are regularly transmitted to India for inspection, the Indian Branches enjoying improved advantages with the Parent Society.

12. When the application for Assurance makes no mention of the date from which the Assurance is desired to take effect, the Policy will be issued as on the date of approval of the risk by the Directors, but no Assurance to be binding on the Society until the first premium shall have been actually paid to the Agents.

16 *Money prepared for Assurances within circumstances stipulated in, and the Assurances completed generally within 4 days after the application is made.*

17 *No fee charged on Policies Medical information recommended by the Society, by the of Marine Risks on proposals for Assurances not under Charter - Reinsure 2,500, but for any less sum the fee to be settled by the applicant.*

18 *The Directors of the Society hereby estimate that the cost of the Stamp Duty on all new Policies issued by them, will be defrayed by the Office.*

19 *The Tables, Blank Forms, and other particulars, requisite to enable persons to effect Assurances, may be had on application to the Agents.*

*By Order of the Directors.*

*Indian Lapsable and Medical Assurance Society.*

[*THE MADRAS ALMANAC* of 1890 page 468 and 469.]

This Insurance Company is the oldest established in India and the only one in Calcutta offering the advantages of the **MUTUAL ASSURANCE SOCIETY**. It is under the management of a Board of nine Directors who meet once a week, and a Secretary.

The Society has agents at the other Presidencies, the Colonies and at the principal stations in the Lower and Upper Provinces. The Directors desire to invite the attention of the Public to the real and solid advantages which the adoption of the new Rules and Rates now published as taking effect from 1st July 1900, presents to them.

1. The Rates charged on all Policies issued from this date are at a much reduced and fixed figure, not subject to any fluctuation.

2. The Rates will be found in comparison with other Tables to be Lower than those of any other Assurance Office in India, which fact cannot fail in itself to encourage the **LAUREL SOCIETY** to a fair participation in public and private support.

3. This Office being a Society founded on the acknowledged and sound principles of **MUTUAL ASSURANCE** divides the whole of its profits amongst the assured, whereas other Institutions work for the benefit of a separate and distinct Proprietary body.

4. The Security afforded by its large capital, at present exceeding 8 Lacs of Rupees is not nominal, but the whole is invested in Government Securities in the name of all the Directors.

5. On satisfactory proof of death Policies are adjusted and paid one month afterwards without any deduction for discount.

6. Policies are granted for various limited periods from one year to seven years, and also for the whole duration of Life at fixed rates of Premium.

7. An Insurer, after one year's residence in Europe, or other country approved by the Directors is entitled to a reduction of 10 per cent. on these rates.

8. To suit the convenience of Policy-holders Premiums will be received quarterly or half-yearly.

9. Military Officers holding Civil Appointments are charged at Civil rates, which is unobjectionable.

10. Rules, complete sets of Tables of Rates, Blank Forms of Application and Certificates are always obtained at the Office of the Secretary who will effect Insurances free of charge. No fee required for the Certificates of the Society's Medical Officer.

Agents appointed to receive applications subject to the request

Mr J C. Warrance Collector of Income Tax

## NOTICE RESPECTING INCOME TAX.

*In order that the inhabitants of the Presidency Town of Madras, may clearly understand in what manner the Income Tax will be assessed, and by what means they should conform to Act XXXIII of 1860, the following "Instructions" are made public by the Income Tax Commissioners.*

1. The Income Tax Commissioners will issue a "General Notice" which will be affixed in public places in the Presidency Town of Madras "that all persons liable to pay Income Tax must send in returns of Profits or Income."

2. The different kinds of Income liable to be taxed are put into four classes viz.

1. Those derived from land and real property
2. Those derived from personal Property Trades and Professions
3. Those derived from Public Fund and Annuities.

4. Those derived from employment under Government or in the Service of a private Company, or from Pensions, &c.

3. The "Income Tax Assessors" will then serve "a Special Notice" on every person whom they consider liable to pay the Income Tax and with that special notice the Income Tax Assessors will send the Forms of Returns which must be filled up by the persons to whom they are sent, such Forms of Returns can also be obtained on application at the Office of the Commissioners.

It will be seen that in accordance with the special notices served on all those liable to pay the Income Tax parties are required to enter in their returns, their actual profits, and incomes for the last year ending on the date when accounts of trade are balanced at Madras, or in other words, the profits and income stated in the returns are to be those received during the year, ending on the above-said date or on the 30th April preceding that in which the Income Tax comes into force.

For instance, if a trader has made up his accounts on 30th December 1860 he will enter in his Return his Profits and Income from December 1859 to December 1860 as representing last year's income.

4. Persons to whom these Special Notices are sent will choose whether they wish their assessment to be calculated by the Income Tax Assessors, and then to be fixed by the Board of Commissioners, or whether they wish the entire assessment to be made by the Income Tax Special Commissioners without the Assessors using the Returns.

The advantage of this latter course will be that complete secrecy will be obtained.

5. If persons choose the assessment to be calculated by the Income Tax Assessors, they will send the Forms of Returns, which accompany the Special Notices, duly filled up, and sealed, to the Assessor of the District in which they reside. The Officer will calculate the amount of Income Tax to which the parties making the returns are liable, and will send in the statement for the consideration and approval of the Board of Commissioners with any remarks he may make upon the Returns.

6. If persons choose to be assessed by the Special Commissioners, they will send the Forms of Returns, which accompany the Special Notices, duly filled up, with an application to the Special Commissioners, stating that the applicants wish to be assessed by him. This

cover must be sealed and addressed, to the Special Commissioners, and must be enclosed in a cover addressed to the Assessor of the District, and on the 30th

ver the applicant must bring his own state bill (just of value, so that the Assessor may know the names of those who have made their returns to the Special Commissioner.

The Assessor will then forward the envelope without opening the seal to the Special Commissioner who will open it with his own hands.

7. The Special Commissioner if satisfied with the Return will estimate the assessment payable by the applicants, and this assessment will be final.

8. Persons wishing to compound their Income Tax, that is to pay for conventional years at a uniform rate, instead of being assessed each year, can do so, for periods of 2, 4 or 5 years. They must when making their Returns, and before being assessed for each year, give a Notice to the Assessor of their wish to compound, and whether for 2, 4 or 5 years. The Commissioner or Special Commissioner will then fix the assessment as before described, and the party compounding will sign an agreement to pay this assessment together with an addition thereto at the rate of 1 Rupee for every 20 Rupees of the rate assessed as addition, and this total assessment will remain unchanged during the period for which the Compounding has been made, so that persons compounding will during this period have no further annual Returns of profits or income to make.

9. If returns made to the Assessor, or to the Special Commissioner are not considered true, then the Assessor, in the case when the returns are made to them direct, (para. 4) will determine, to the best of their judgment, what they consider the Returns should have been, and compute what the assessment should be, and report the same to the Commissioner who will "exchange" as they deem right.

10. In the same manner, the Special Commissioner, when the returns are obtained to him, (para. 5) if he considers the Returns sent him not true, will "exchange."

Exchanges by Commissioner.

11. Notices of these exchanges will be sent to the parties, by the Commissioner or the Special Commissioner, as the case may be, and the parties exchanged may then appear before the Officer exchanging, (either the Commissioner, or the Special Commissioner) to explain and prove, either by their accounts, or by witnesses, the truth of their Returns which have been exchanged.

12. It must clearly be understood that no parties can be compelled to attend at the Income Tax Office or to produce any accounts whatever in support of their returns.

13. It must clearly be understood that no parties can be compelled to attend at the Income Tax Office or to produce any accounts whatever in support of their returns.

14. It is only when the Returns appear to the Assessor and Commissioner, or to the Special Commissioner, imperfect or untrue that exchanges will be made, when it will be optional with the party exchanged to attend or not with his accounts as he may think proper. If persons do come with their accounts, all that it will be necessary for them to do will be to satisfy the Assessing Officer of the correctness of their Returns, which they may prove as they best see, either by their accounts or witnesses. It is optional with them to use their accounts or proofs of the correctness of their returns, but they are not obliged to produce their accounts; if, however, they fail to convince the assessing Officer, they will have to pay the exchange.

15. If persons do not send in their Returns to their District Assessor as described above in para. 4 and 5, the Assessor will make a list of such persons who do not furnish their Returns, and the Assessor will submit to the best of their judgment, the accounts which such persons should be required, and report the same to the Commissioner, who will then exchange the assessment. A notice of the assessment, thus changed, will be sent to the persons whose names are on the list, and if they produce any accounts, they will be assessed on the basis of their accounts, but if they do not, they will be assessed on the basis of the assessment thus changed.

16. It must clearly be understood that no parties can be compelled to attend at the Income Tax Office or to produce any accounts whatever in support of their returns.

these Returns, they will not be subject to any penalty by the Commissioners against the convention with which they have been charged.

15 It is therefore strongly urged upon those liable to the Tax, to fill up correctly their Returns, and forward them to the District Commis- sioners within the time specified in the special Notice.

"(I.) There have been received 698 Premiums for Assurance, amounting to Rupees 27,77,000, of which 25 for Assurances, amounting to Rupees 1,24,251 have been declined.

"(II.) There have been issued 697 New Policies, amounting Rs. 24,34,000, and yielding in Annual Premiums Rupees 1,00,000-0-0.

"(III.) There have been adjusted 94 Claims by death on 26 lives, for the aggregate sum of Rupees 4,27,446.

"(IV.) The Contingencies from all causes amount to Rupees 22,51,070, the relative Annual Premium income being Rupees 22,725-0-0.

"(V.) The Policies in Force as at 30th June 1869 are in number 2,102, Amounting Rupees 1,22,50,507-0-0, and yielding in Annual Premiums Rupees 2,56,120,10-11, but in this Amount is included Policies held by the India Bank amounting to about eleven Lakhs which that Bank has indicated that as regards their interest they will not renew.

"(VI.) The Investments, all of which stand in three names, amount to Rupees 2,26,000 11 11 including Cash and Bank Balances, Rupees 2,20,000 being in Government Securities."

From the above Statements it will be seen that our position is much the same as it was last year. Our Assets are Rupees 22,000 more, and the new Policies issued, 697 in number, amounting Rupees 24,10,000 prove that, as hitherto, the confidence and favor of the Public continue to be given to this Society.

The Directors have to regret the discontinuance by the India Bank of its connection with this Office. The Directors of the Society, after what they did for the India Bank at the time when all its records and policies were destroyed and nearly all its Assurances cancelled for non payment of premium, cannot but express their surprise that the Managers of the Bank should have transferred their business to another Society, without attempting or attempting to show any grounds for the proceeding.

The delay that has taken place in the settlement of the great question of the organization of the Civil and Military Establishments of the country, has checked our progress and business generally.

It is evident that no one would enter into engagements extending over any period, until he knew his position,—and the Director and other new Taxes, as long as they remained uncertain in their existence and amount, must have had a similar effect.

Until these questions are decided, this Society must be contented to hold its own ground, as it is at the very least doing in comparison with any other Assurance Company.

The Directors are happy to be able to acknowledge that their protest against the heavy Stamp Duty proposed to be levied on Policies of Assurance, and on assignments of them has met with attention from the Legislative Council, and they take this opportunity to intimate that the Society will pay the Stamp Duty which is levied by law from 1st October on all policies issued by them.

By order of the Directors,  
For P M TAIT,  
W B WALLIS

Calcutta, 26th September 1869.

#### ABSTRACT OF INDIAN PRODUCTIONS. SUMMARY.

The Capital of the Society is Half a Million Sterling, fully subscribed by an interested body of Proprietors, in Ten Thousand Shares of Fifty pounds Sterling each.

#### PROFITS.

The Indian Branch of this Office, without any claim whatever to the support of the Public beyond that arising from a simple statement of facts hereby has this day year, issued Policies amounting Rupees 2,56,120, or nearly Three Lakhs in Sterling. This is enough to prove that the public have pronounced in favor of the Low Assessments and Steady Reliability of the India Branch of the Society for India.

**CLAIMS PAID.** The Directors enter with confidence to the shareholders and Members with which claims have been adjusted. The losses sustained in one instance of the members above, all of which have been paid, amounted to Rupees 6,741,8, showing that with a fully subscribed Capital, large Income and Assets, complete security is offered that Policies will be paid when due.

## SOME RECORDS.

Are maintained at regular intervals of five years, and an entire two-thirds divided amongst Policy-holders on the Participating Basis.

At the twelfth Annual General Meeting of the Society, held in the Offices in London on 26th November 1904, the first bonus on Indian Policies arising out of the profits up to 31st June 1904, was declared, and nearly two per cent. per annum was added to the amount secured by Policies effected on the Participating Basis.

The following example will illustrate the effect of the Bonus on Indian Policies.

When it is considered that at the date of the last British Office Report Policies

affiliated to this Society, the Society had taken from that two years established in India, that two years of the Company was not longer than at any other time. The Company's share and lower than that of any other Company, and the Company's share actually in the year 1913 was below what is shown, these things cannot be considered as other than satisfactory.

#### THE COMPANY'S ADVANTAGES

3 No Freight will be assigned in a Steamer unless the application shall have been submitted ten clear days before the published date of her departure and none will be reserved on board unless sent alongside seven clear days prior to the same date.

4 Before an order is granted for the reception of Passengers or Goods, the whole amount of passage money or freight must be paid, and in the event of the exigencies of the Public Service requiring the engagements to be cancelled which it is expected will but seldom occur the amounts so paid will be of course returned.

5 The passage money gives title to one Berth only. If a whole Cabin is required for one person the vacant berths in it will be charged at two-thirds the published rate.

6 At Manipatan Cocomada, and Vangapatam application for passage or freight will be registered by the Master Attendant and at Rangoon by the Superintendent of the Irrawaddy Flotilla to be handed to the Commander on arrival who will then decide on the Passengers and Cargo to be received, under the same conditions of cancelling the engagements if the exigencies of the service so require it as are reserved to the Superintendent of Marine at Madras.

7 All Services will be charged for as Deck Passengers.

8 Cabin and Quarter Deck Passengers will be allowed to take 3 Cwt. of Baggage, and Deck Passengers a box measuring 5 cubic feet and a box not exceeding two feet in breadth, which must be rolled up during the day.

9 Baggage must be brought to the Baggage Office at Madras, or the Master Attendant's Office at Manipatan Cocomada, and Vangapatam, and at Rangoon to that of the Superintendent of the Irrawaddy Flotilla, 24 hours before the departure of the Vessel and all in excess of the quantities named in the preceding para. will be charged for as freight.

10 Passengers who after engaging passage fail to present in the Vessel, will forfeit one-third of the passage money.

11 Freight engaged will under similar circumstances be subject to a like forfeit.

16 Dogs, Goats and Sheep will be charged (Rs) five Rupees per head when permitted to be shipped

17 No Bill of Lading will be signed under 3 Rupees.

18 The published list of the dates of departure is framed with reference to the shortest time of the arrival of the English Mails but as the different P and O Steamers vary in the performance of the voyage from Rangoon, an interval of twenty days will be allowed to elapse between the arrival of the one and the departure of the others any time thus anticipated being kept up throughout the year

IN THE EVENT OF ANY SUCH SICKNESS HAVING OCCURRED you are hereby ordered and directed to prevent all communication on with other Vessels in the Roads or with the Shore until the Port and Marine Surgeon shall have duly reported such sickness to be free from objection. IF SICKNESS HAS APPEARED AND BEEN PREVALENT, you are required to hoist the Officer's Flag (half yellow with a blue swallow tail) which will be answered from the Master Attendant's Flag Staff with Flag No. 9 signifying that until the Port and Marine Surgeon shall have visited the Vessel all communication with the shore or shipping is strictly prohibited and no dead bodies to be thrown over board in the Madras Roadstead. I am further directed to call your attention to the following Rules and Regulations.

1. All Post Office Packets and loose Letters are to be sent by the Boat which way comes alongside having in it a Post Office Pass.

2. Commanders of all Ships and Vessels are required to report themselves in person on landing at the Master Attendant's Office and to bring with them the Ship's Register with two Lots of the Officers, Ship's Company or Crew, and Passengers, and all others on board who may not form part of the Ship's Company.

3. Commanders of all Ships and Vessels are required to report themselves in person on landing at the Master Attendant's Office and to bring with them the Ship's Register with two Lots of the Officers, Ship's Company or Crew, and Passengers, and all others on board who may not form part of the Ship's Company.

gunny or crew, and no Merchant Ship or Vessel will be admitted to entry at the Custom House without a Certificate from the Master Attendant that the provisions of the Article have been complied with.

3. All Commanders of Merchant Ships and Vessels and Masters of all Country or Coasting Vessels or Fishing Boats, and all other persons concerned are also required to deliver two Lists of all persons on board at the departure of the Ship or Vessel, and the said Lists are to show all the Comrades which have occurred by death, discharge or new shipment during the Vessel's stay in the Port, and also the names of all those who shall be otherwise moving and the Port Clearance will not be counter-signed by the Master Attendant unless it be accompanied by the departing list prepared in the manner required by this Article.

4. All Ships and Vessels other than those commonly known as Fishermen or Native Vessels are directed to anchor within the following bearings, viz. The Master Attendant's Flag Staff from N W to W $\frac{1}{2}$ N which will be found the most convenient anchorage for Merchant Vessels and the southern limits of the restricted usually resorted to by Men of War may be ascertained as within the position denoted by bringing the New Light House to bear from W by N to due West, from 9 to 7 fathoms, which is the limited range of coverings through

out—All Ships and Vessels should take up such a berth as will enable them to wear clear of all danger in the event of coming to shore when they weigh or part from their Anchors, especially as the ground swell so prevalent here, tends against all pretensions to cast a Vessel ashore—Any Ship or Vessel anchoring without these limits or at more than 8 fathoms will be liable to action here.

5. Commanders of all Ships and Vessels coming to an anchor in these Roads are advised to attach a buoy to their anchor whereby giving fixed berths may be avoided and the position of lost anchors will be indicated.

6. As Ships have frequently parted and accidents have happened by riding with too short a scope the Master Attendant thinks it his duty to caution all Commanding Officers that no Vessel is safe with less than 60 fathoms Cable in moderate weather, and 80 fathoms or more with a swell,—and to those who are not acquainted with the Roads, should any jerk be felt when riding with a Chain (from the heavy swell which rolls in at times, either on the Weather or Tide, Cable should be hauled until the jerk is no longer felt, and a second anchor should always be ready to let go. Without ground tackling is essential towards the safety of Vessels in these Roads.

7. When the surf is so high, as in the opinion of the Master Attendant or his Assistant, to render communication with the Shore dangerous, a red and white chequered flag will be hoisted at the Master Attendant's Flag Staff. When the surf is repulsive the first distinguishing pendant will be displayed under that flag. When the current is strong the rainbow flag will be hoisted.

8. Should the weather assume such a threatening appearance as may in the opinion of the Master Attendant militate in approaching gales, and render it advisable that the Ship should put to Sea, the following Signals will

23. In the event of any irregular practices amongst the Crews of Boats or Customhouse, especially if such persons or others are detected smuggling Goods alongside any Ship or Vessel, commanding them, &c., Commanding Officers are requested to note down the number of such Boat or Customhouse, and to may call the Police Boat alongside, and give over the person or persons so offending to the Officer or Port in charge of that Boat, and report the circumstances in writing to the Master Attendant, Commanders of all Vessels are particularly requested to ensure the accuracy of their Officers

30. Commanders of Vessels are hereby acquainted that sick Seamen of every country are admissible into the General Hospital on application to the Master Attendant at whose Office the rules for the admission and the charge of the Seamen of all ranks can always be referred to.

31. Commanders of Vessels are recommended to ascertain which Ship or Vessel in the Roads have a Surgeon on board, so that medical aid may always be available in time of need and if Commanders of these Vessels would undertake to provide medical assistance in relation it will be advisable to show a Union Jack at the Mast from 6 till 8 A. BATTLE REGULATIONS FOR THE ROYAL NAVY

REGULATIONS RESPECTING BATTLE AND OTHER ALLOWANCES MADE BY THE EAST INDIA COMPANY TO OFFICERS OF THE ROYAL NAVY SERVING ON THE EAST INDIA STATION.

Despatch from the Honorable the Court of Directors to the Government of Port St. George in the Marine Department, dated 10th March No. 2 of 1862.

Para. 1. Having received frequent representations as to the operation of the Regulations respecting Battle and other allowances made by the East India Company to Officers of the Royal Navy serving on the East India Station, we have thought proper to revise these Regulations, and we direct that, in lieu of them, the following be henceforth adopted. The Battle payable shall be according to the subjoined scale, viz.:

To the Commander-in-Chief, not being below the rank of Rear Admiral, at the rate of	Rs. 20,000 per annum.
To a Commander ascending to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of	15,000 ..
To a Captain, ascending to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of	10,000 ..
To the Secretary to the Commander-in-Chief at the rate of	1,500 ..
To the Surgeon in Command, not being below the rank of Commander at the rate of	10,000 ..
To the Secretary of the 2d in Command at the rate of	900 ..
To every Captain at the rate of	5,000 ..
To every Commander at the rate of	1,500 ..

To a Lieutenant Commanding a Vessel of War, but not a Transport at the rate of...	Rs.	800 per annum.
To the Ward Room, or Lieutenant's Mess of a First, Second, or Third Rate Ship at the Rate of...	"	2,500 "
To the do do of a Fourth Rate Ship at the rate of		2,000 "
To the do do of a Fifth Rate Ship at the rate of		1,700 "
To the do do of a Sixth Rate Ship at the rate of	"	1,300 "
To the do do of a Sloop or other Vessel Commanded by a Commander at the rate of	"	800 "

3 The rate of a Ship is to be determined according to the classification inserted in the Navy List, published by authority of the Board of Admiralty.

3 Payment of Batta to the Naval Commander in Chief shall commence from the date of his arrival at the first Port within the limits of his command and shall cease on his departure from the last Port within those limits, and during the same period the Secretary and Flag Lieutenant of the Commander in Chief shall also be entitled to Batta.

4 Batta shall not however be paid to any Officer except while serving in that part of the Indian sea (or in the Gulf or Bay) commencing there with and ending within the 10th parallel of South Latitude and the 10th degree of East Longitude payment commencing on the arrival of the Ship on board which they may be serving at the first Port within the said limits, and ceasing on her departure from the last Port within the same.

5 Further in pursuance of our orders of the 11th April 1846 addressed to your Prerogative and of all other orders hitherto issued relative to the accommodation of Officers of Her Majesty's Navy, when required to be on shore upon the public service, we direct that allowances in lieu of House rent and accommodation on shore, be paid to the Officers specified according to the subjoined scale viz

To the Naval Commander in Chief not being below the rank of Rear Admiral at the rate of	Rs.	3,500 per annum
To the second in command, not being below the rank of Commodore at the rate of	"	2,500 "
To a Commodore or Captain commanding the Chief of Command by the death, resignation or ceasing away of the Commander in Chief at the rate of	"	2,500 "
To such Captain at the rate of	"	1,000 "

6 These allowances being payable to the Officers in question whether actually resident on shore or not, for any period during which, according to the regulations laid down in this Dispatch they may be entitled to Batta. These allowances being thus rendered continuous are intended to provide for the accommodation on shore of Naval Officers of superior rank in whatever part of the Company's territories they may happen to be; and as it has hitherto been customary to make payments of Batta to Navy Officers at Madras only it will be more convenient if the payment of allowances in lieu of House rent &c. be henceforth paid only at the same place.

7 In accordance with our letter to the Government of Madras of 21st May 1844, the practice of requiring from Agents drawing Batta for Naval

NOTICE

GLEANER 26th December 1867

Instruments having been experienced from the part of Colingaputnam being placed on some Charts in latitude 10° 26' N the Marine Board have given notice that the true position of the extremity of the Sandy point South of the river according to the Great Trigonometrical Survey of India is as follows

Latitude	10° 19' 00" N
Longitude according to Madras Light	80° 7' 30" E
Bearing to be in 80° 18' 30" E	

Colingaputnam may be known by a high hill (Garrh I (2)) about four miles from the Sea having a white Pagoda on its side with a single tree just above it but as this is sometimes obscured in heavy weather a beacon has been erected on the point which is long low and sandy and has a roof of reeds raised up from it about (4) half mile to seaward.

In passing this point vessels ought not to come within (5) eight fathoms.

The best anchorage is in (6) six and a half to (7) seven and a half fathoms with the extremity of the sandy point about S W by S, (8) two to (9) three miles off and the highest upper rounded house near the shore W N W to N W by W about (1) one and a half to (2) two miles off shore.

The Beacon is a Capped obelisk on a pedestal 65 feet above the level of the land.

Large Flag Staff nearest to Beach	N W by W

Bellie Hill detached from high land and rising abruptly at back of Beach and Hill	} S W by W 1/2 W
Mountainish Hill just appearing over Ridge on Beach and Hill	

In 5 fathoms. These bearings will place a ship nearly opposite a very large white building close down to the Beach from whence the boats regular are shipped and she will be about a mile and a half from the shore. At Gopaulpore the N. E. or fine weather seasons sets in in November and continues till March during which time there is little or no wind on the Beach, and the weather doesn't vary much. In March the South E. Wind sets in strongly during the day coming at times a good deal of rain, which becomes still heavier in the months of July, August, and September when the S. W. Monsoon is blowing in Bay of Bengal but ships with good ground, tacking may ride throughout the S. W. Monsoon with perfect safety in the vast

ships along the bank but at the change of Monsoon in October or July in November, but weather must be favourable, and again also towards the end of May or early in June when the S. W. Monsoon sets in.

There is very good holding ground in Gopalsagar Roads if ships anchor out in 2½ to 10 fathoms where the bottom is sand mixed with stiff mud, but only sand is found at about 7 fathoms hence an additional cause of danger to ships coming too close in.

ANKA SUGAR WORKS, }
26th December 1867 }

G. W. BOOTHBY

In December 1867, the Ship *Albion Castle* (1200 tons) Captain Hight anchored in 2½ fathoms, the Government flag staff bearing West by North or West North West, Captain Hight says he thinks this was as good a berth as a ship could have in the North West Monsoon, and even for any thing in the South West Monsoon he would anchor a little further in the Southward and further out in 9½ fathoms bringing the flag staff to bear about North West by West.

The above notice is published for general information by
GASPAR, 1st January 1868.

W. KNOX,
Acting Collector

NOTICE TO CAPTAINS OF VESSELS CALLING AT MASULIPATAN

1. The best mark for anchorage is the Fort Flag Staff bearing W ½ N—the ships draught of water being the guide as to how close she may approach. With the above bearings a Vessel in 2½ fathoms will be about 2½ miles from the mouth of the river. The holding ground in the roads is good.

2. A Ship coming into 2½ or 3½ fathoms low water, will fall into a small basin with about 5 feet more water than in any part around it. The place is not of large extent and may be missed if the above mentioned bearing is not kept. This position is a good one for ships, as the boats work better to a ship with these bearings on than to any other, at most seasons of the year.

3. Commanders of ships should bear in mind, that with this bearing the water shoals very gradually, and that coming in as close as possible will go far to expedite the landing or discharge of Cargo and lessen the cost of boat hire.

Boats may be had at the following rates, except in very bad weather.

		1st Rate Boat, burthen 12 tons.		2nd Rate Boat, burthen 8 tons.			
		Rs.	P.	Rs.	P.		
To or from a vessel in or under 2½ fathoms,	to the pier head in the Fort.	5	4	0	3	12	0
Do. do. in 4 and over 2½		6	0	0	4	4	0
Do. do. in 5 and over 4		7	14	0	5	20	0
Do. do. in 6 fathoms		10	0	0	7	8	0

Half hire is payable for return trips, if Cargo is shipped and landed from the same vessel, and the same rate of Hire for transshipping Cargo.

A Canal toll of 1 anna per ton is levied on all boats and vessels going up to the Backs, but in no case does the toll exceed 1 Rupee per trip.

For boats going up to the Backs, Rupees 1-4-0 extra hire is charged.

Parties desirous of being married should apply direct to some Paragonate residing near them; but from places where there is no Paragonate, application should be made to the Registrar, who will procure a recommendation, under the episcopal seal, authorizing some persons to administer the usual oath and grant the necessary licence. None but a Clergyman of the Church of England can marry by virtue of an Episcopal licence. Parties who cannot on account of distance obtain the services of a Clergyman to marry them, must state the fact, and apply to the Town Major, Fort St. George, who will obtain the permission of the Right Honourable the Governor for their marriage, under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a soldier in H. M. or the Honourable Company's Service, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a Licence.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese (R. Murphy, M. A.)

BANGALORE BAPTIST CHURCH.

Pastor—HENRYD MARSDEN

This Church was formed in November 1864 by the Rev T. C. Page (City of Madras) then temporarily residing at Bangalore. It enjoyed the pastoral superintendence of that esteemed servant of Christ for the first few months of its existence, but was for some time subsequently to his departure from the station without a Minister. In June 1866, Mr Marsden was providentially brought to the place, and, on the earnest and unanimous invitation of the Church, accepted, as a temporary measure, to take the oversight of it; but having, at the close of that year, determined on relinquishing secular pursuits, agreed to become its stated Pastor. On the 30th March 1866, the union between himself and the Church was publicly recognised, he having been previously set apart for the work of the Gospel ministry at Madras.

OBJECTS OF THIS SOCIETY.

The object of this Society is to supply those stations in the Diocese in which Europeans and their descendants reside, and for whom no stated public means of grace are provided, with the regular ministrations of the Church.

In field of operations at present embrace the stations of Cochin, the Shewary Hills, Salem, and Kollam. Up to last August a Clergyman employed by the Society had spiritual charge of Madras, but was obliged to return to Europe on sick Certificate.

Facilitating the Efficiency of the Government in increasing the number of Chaplains at this Presidency, there are still several stations for which no adequate spiritual provision has been made. The Society is therefore anxious to extend its field of operations, and to be enabled, by additional subscriptions from the Christian community, to send to England for more Clergymen, to supply the lack of labourers in this great Harvest field.

A portion of the annual report, to which is annexed a copy of the Rules, will show the principles of the Society, and the importance of the work in which it is engaged.

Any person willing to assist in promoting the object which this Society is endeavouring by God's blessing to carry out zealously and successfully, and wishing to receive more explicit information regarding its operations, may communicate their wish to the Acting Secretary, and a copy of the Report will be immediately forwarded to their address.

Contributions or Donations may be paid either to the Acting Secretary, or to the Treasurer of the Society Messrs. Arncliffe and Co., Madras.

Venkataramak Superintends the English School and Mission at Nellore, with the Branch at Gubbior. The Rev S. Ettirajalak Superintends the English School and Mission at Chingleput, and visits the Schools and Missions at Coimbatore and Wallajahpet. The Rev S. Himmansjee is looking to an Evangelist in and around Wallajahpet, his circle embraces 50 villages which he systematically visits.

The Parent Institution is designed to fulfil the three-fold end of a College for rearing up Native Preachers, a Normal Seminary for training Native

Teachers, and a School for general information. Night Branch Schools for males exist in connection with it. These are at Triphing, in Black Town, Conjeevaram, Trivellers, Wallajah, Chingayut, Sellers and Gordon. The average attendance during 1850 at all the Schools has been about 1,800 Hindus and Mahomedans, on a roll of about 1,900. The Hindu pupils are of all castes and classes, from the Brahman to the Pariah, no distinction being made by the Missionaries.

The Female Institution for Converts and Boarding Girls is under the charge of Mrs. Campbell assisted by Miss MacOster; Mrs. Anderson being in Switzerland for the benefit of her health. There are besides, Ten day Schools for Hindu and Mahomedan Girls, in connection with the Mission. These Schools contain about 800 pupils, making the entire number of pupils on the roll above 2,600.

The education gives students a knowledge of the Scriptures, and all the branches of an enlarged secular course of instruction. This is communicated through the medium of English, Tamil, Telugu, and Hindustani; and instruction is also systematically given in these tongues, by competent Munshis. The Committee of Foreign Missions of the Free Church and of the Edinburgh Medical Missionary Society united in sending Mr. D. H. Petersen, Surgeon, as a Medical Missionary to co-operate with the Missionaries of the Free Church in Madras. In March 1857 he opened a Dispensary in Black Town with encouraging success. During the year 1859-60 about 6,000 patients came and obtained Medical treatment.

Armenian Street, Black Town.

This Institution was established in 1881 for the purpose of training Parashers, Catechists and Teachers, to assist at the numerous stations supplied by the London Missionary Society in Southern India, and also to give a good English and general education to Native boys.

There is also a class of Christian young men—Converts and others preparing for Mission work. These study the Principles of Christianity, Greek Testament, Logic and History. Within the last year two have left the Class for active Missionary labour among their countrymen.

There are two public services for preaching the Gospel in Tamil held each Lord's day in the large Hall of the Institution—the one at 11 A. M., and the other at 4 P. M. Several other Services are held elsewhere each week in and around Madras.

The number of boys at present (October 1880) attending the Institution is 400, chiefly from the more respectable classes among the Hindus and Mohammedans.

The studies pursued have comprised the Scriptures, Ancient and English History, History of India, English Grammar and Composition—Milton, Evidence of Christianity, General Geography and Geography of India, Use of the Globes, Euclid, as far as the 6th Book, Algebra, Natural Philosophy, Arithmetic, Tamil, Telugu and Hindustani.

In connection with the Institution, there are 6 smaller branch Schools in Madras and the immediate vicinity, with a regular attendance of 480 boys so that in connection with the Madras station of the London Missionary Society 880 Children are receiving a good Christian Education. Particular attention is paid in all these Schools of the Vernaculars and Tamil, Telugu and Hindustani are taught by efficient Missionaries.

In this Mission is a Seminary for training Native Ministers, containing 10 Members, who are free boarders; a Girls' Boarding School, having 14 pupils; and 72 Village Schools; with 1075 pupils, of whom 729 are the children of nominally Christian parents. In 145 Village congregations there are 991 Christian adherents, of whom 1812 are baptized Members of the Church.

The American Board sent its first Missionaries to India in 1812. With much difficulty, on account of opposition from the Government, they commenced a Mission at Bombay the next year. In 1816 a Mission was commenced in North Ceylon. There are now, in all the Missions here named, 30 Ordained American Ministers, about 1,200 Church Members, and including these and the baptized children, not far from 7,000 Christian adherents.

THE MISSION OF THE BASIL EVANGELICAL MISSIONARY SOCIETY

On the 31st of October 1894, the 1st Missionary sent by the Basel Society to India, landed at Mangalore to establish a Mission in Canara. In 1897, a second Province, the Southern Malabar country was occupied by the commencement of a Mission at Dharmar. In 1900, the work was extended to the Province of Malabar, where a station was established at Tullaherry. In 1906, the Nilagiris were taken up, and in 1908 a Station was gained in Coorg.

The number of stations, scattered over these five districts, amounts at present to fifteen. Three are situated in Canara, viz., Mangalore, Malke and Udapp. Besides these Hemosa and Shikappa were occupied for a time in connection with the Canara Mission, and though relinquished at present, will be taken up again as soon as circumstances permit. In the Southern Malabar country five stations have been established, viz., Dharmar, Hobbly, Battigheerry and Mahanuradu (to the East of the Dharmar Collectorate, near Gaddal) and Orlahayadu (to the East of the Belgum Collectorate, near Engalottah.) In Malabar there are likewise five stations, viz., Ommara, Tullaherry, Chomala (to the South of Malabar) Calicut and Palghat. The Nilagiris and Coorg each seek for one station.

Forty-four Missionaries, ten of whom are laymen, are employed on the different stations of this Mission, exclusive of nine who are recruiting their health at home. They are assisted by 67 catechists and Christian schoolmasters, and 8 Schoolmistresses.

At the beginning of 1900, Canara had 870 converts and catechumens, the Southern Malabar country 294, Malabar 1518, the Nilagiris 25, and Coorg 139 in connection with this Mission. Total 2,727. Of these 1,266 were communicants.

The various school-establishments were attended by 2,680 pupils. Of these 299 belonging to Canara, 726 to the Southern Malabar country, 1,226 to Malabar, 104 to the Nilagiris, and 96 to Coorg.

EDUCATIONAL NOTIFICATION.

With reference to the Educational Notification published in the Port Saint George Gazette under date the 18th August 1885, the Director of Public Instruction gives notice that the following revised rules for regulating Grants-in-aid of private schools and other Educational Institutions have been approved and sanctioned by Government and will, in future, be acted on in lieu of those hitherto in force.

1. Grants-in-aid of schools and other Educational Institutions will be made with the special object of extending and improving the secular education of the people, and will be given impartially to all schools (so far as the Funds at the disposal of Government may admit) which impart a sound secular education, upon the conditions hereafter specified. It will be essential to the consideration of applications for aid, that the schools, on behalf of which they are preferred, shall be under the management of one or more persons who, in the capacity of Proprietors, Trustees, or Members of a Committee elected by the Society or association by which the school may have been established, will be prepared to undertake the general superintendence of the school, and to be answerable for its permanency for some given time.

2. Every application for a grant must be accompanied by a declaration that the applicant or applicants are prepared to subject the school on behalf of which the application is made, together with its current accounts, lists of establishment and registers of attendance, to the inspection of a Government Inspector, such inspection and examination relating only to the general management and to the secular instruction, and having no reference to any religious instruction which may be imparted in the school.

3. Except in the case of Normal Schools for training teachers, and of Female Schools, grants will be restricted to those schools in which a monthly schooling fee is required and is paid by not less than four-fifths of the pupils attending the school.

4. Grants will be made only for specific purposes and not in the form of simple contributions in aid of the general expenses of a school, and it will be essential in each case to the payment of the grants that the proprietors which under the rules hereunder specified, the Managers are required to contribute for the purposes for which the grants may have been sanctioned, shall have been duly paid.

5. The following are the specific objects for which, and the conditions upon which, grants will ordinarily be given.

- 1st. The remuneration of the salaries of School Masters and Mistresses.
- 2d. The provision of stipends for pupil-teachers and of gratuities to teachers who undertake to instruct them.
- 3d. The provision of school books, maps, &c.
- 4th. The establishment and maintenance of school libraries and public libraries.
- 5th. The erection, purchase, or enlargement of school buildings.
- 6th. The provision of school furniture.

6. Grants-in-aid of the salaries of Masters and Mistresses will, in future, be conferred only on such Masters and Mistresses as may hold a certificate of qualifications signed by the Director of Public Instruction, and which will be granted, partly on the result of a written examination conducted to test the attainments of the candidate and his ability to re-produce the knowledge he has acquired in such a form as to be adapted for the instruction of youth, and partly on the report of an Inspector of schools on his teaching power. The

certificates to be awarded to school-masters will be of nine classes, and the examination for each class of certificates will be conducted by means of printed papers† according to

*Appendix A.†
the scheme* appended to this notice.

7. The examinations will be held half yearly in the months of June and December at Madras and at any of the principal towns in the provinces in which candidates may desire to be examined.

8. The several grades of certificates will render the holders eligible in the following grade:—

A. Certificate of the 1st Grade to an annual Grant of Rupees 800				
Do.	of the 2d	do.	do.	800
Do.	of the 3d	do.	do.	600
Do.	of the 4th	do.	do.	400
Do.	of the 5th	do.	do.	200
Do.	of the 6th	do.	do.	150
Do.	of the 7th	do.	do.	100
Do.	of the 8th	do.	do.	50
Do.	of the 9th	do.	do.	40

But the amount of the grant paid in aid of a teacher's salary shall* in no

* Unless that portion of the salary which is contributed by the Managers shall be defrayed from a permanent endowment, in which case the amount of the Government grant shall be equal to the amount so contributed, provided that the grant shall not exceed the rate assigned in this section to the certificate which may be held by the recipient of the grant by more than one-third. Thus, in ordinary cases, the holder of a certificate of the 1st grade will be entitled to a grant of Rs. 800 per annum provided his employers pay him a salary of Rs. 1,600 per annum; but if the salary paid by the Managers be defrayed from a permanent endowment, the grant may amount to Rs. 1,200 in the event of the sum paid by the Managers being not less than Rs. 1,200.

one exceed one half the amount contributed for the same purpose by the Managers of the school in which he may be employed. Thus, to entitle a Master who may have obtained a certificate of the 1st grade to a grant of the full amount in which he will be eligible under these rules, viz. Rs. 800 per annum, it will be necessary that the Managers of the school in which he is employed shall pay him a salary of not less than Rs. 1,600 per annum. In the event of the income of the school being insufficient to admit of that portion of the Master's salary which is paid by the Managers being double the amount of the grant to which the Master is eligible under these rules, the grant will be reduced in proportion.

9. The certificates to be awarded to School Mistresses will be of five grades, and the examination of candidates of these certificates will be conducted in the same manner as the examination of candidates for School Masters' certificates. The several grades of School Mistresses' certificates will render the holders eligible in the following grade:—

A. Certificate of the 1st Grade to an annual Grant of Rupees 180				
Do.	2d	do.	do.	144
Do.	3d	do.	do.	96
Do.	4th	do.	do.	72
Do.	5th	do.	do.	60

The standard of examination for each grade of School Mistresses' certificates will be found in Appendix B.†

10. In the case of a School Master or Mistress passing in all the subjects provided for a certificate except the Vernacular language, a certificate will be granted entitling the holder to a grant less by one-fourth than the amount assignable to the holder of a complete certificate. But this rule will not apply to candidates of the 5th and 6th grades in the case of School Masters, or in

† Which can be sent on application to the Director of Public Instruction.

certificates of the 4th and 5th grades in the case of School Mistresses, the examination for which will be conducted entirely in the Vernacular.

11. Graduates in Arts in the University of Madras will be eligible to the grant assigned to a Certificate of the 3d grade on passing the prescribed examination in the theory of teaching and school management and on being favorably reported on by an Inspector of schools as to their teaching power.

12. Holders of certificates of the 1st class granted by the Committee of Council on Education in England will be eligible to receive the grants assigned to certificates of the 1st, 2d or 3d grade with reference to the Division of the 1st class to which the certificate granted by the Committee of Council may belong, on passing the prescribed examination in a Vernacular language, or, without passing that examination, to grade less by one-fourth than the amount of the grants assigned to the certificates of the 1st, 2d or 3d grade (as the case may be) listed by the Director of Public Instruction.

13. All Grants-in-aid of the salaries of School Masters and Mistresses will be paid monthly. Their continuance will depend in each case upon the annual report of the Inspector of the Division that the school or class under the Masters' or Mistresses' charge has been satisfactorily conducted during the past year.

14. Grants for the payment of stipends to male pupil-teachers will be made only to those schools in which there may be one or more Masters holding the certificate of the Director of Public Instruction and willing to undertake the instruction of the pupil-teachers out of school hours, and in which there may be pupils competent to pass the examination prescribed for admission to a pupil-teachership in the annual

* Appendix C. and D.† wherein to a pupil-teachership in the annual scheme.*

15. The amount of the stipends granted to pupil-teachers under these rules will be proportional to the grade of school in which they are to be employed. To pupil-teachers employed in schools in which the standard of mother instruction is equal to that held down for Government English schools, the following rates of stipend will be granted.

For the 1st year	Rs. 30 per annum

provided that they pass a satisfactory examination in the several subjects specified for each year's course in the annual scheme of instruction.*

16. In the case of pupil-teachers employed in schools of the higher grade, the Master by whom their instruction is to be undertaken must hold a certificate not lower than the 4th grade. In the case of pupil-teachers employed in schools of the lower grade, the Master by whom their instruction is to be undertaken must hold a certificate not lower than 7th grade.

17. A gratuity will be paid to each Master to whom the instruction of pupil-teachers may have been entrusted, on his furnishing the Inspector, on the occasion of his annual visit, with a declaration signed by himself and countersigned by the Managers of the school, to the effect that the pupil-teachers have regularly received instruction from him as far as they are competent to do during the past year for not less than an hour and a half a day either before or after the usual school hours.

18. Such gratiation will be paid at the following rates:—

and an additional Rupee 25 for every pupil-teacher above three, who may pass the prescribed examination.

19. Every pupil-teacher will be required on admission to sign an agreement binding himself to continue in that capacity for four years from the date of his admission to the pupil-teachership, or in default to refund the amount he may have received as stipend.

20. No youth will be admitted as a pupil-teacher if under fourteen or over seventeen years of age.

21. The number of pupil-teachers in any one school for which Grants will be given by Government in conformity with the foregoing rules, will depend on the number of pupils attending the school; one instructor, (either a Master or a pupil-teacher) being allowed for every 30 boys on the school register.

22. The question of assigning grants to female pupil-teachers will be determined when some experience shall have been gained of the working of the system in boy's schools.

23. Grants for the provision of school-books, maps, &c., will be made on the following terms:—

- (a.) A grant to be designated a supply grant will be made to every

55. Grants will be made towards the erection, purchase, or enlargement of a school building on the following conditions.

1st. That in each case an equal sum shall be contributed by the Managers of the school for the same purpose.

2d. That satisfactory evidence shall be adduced of the necessity for the erection, purchase, or enlargement in aid of which the grant is sought.

3d. That the application shall be accompanied by a plan and estimate of the cost of the building, proposed to be erected, purchased, or enlarged, and that previous to the disbursement of the grant, it shall be certified by the Inspector of the Division or other responsible officer who may have been deputed to examine the building, that the work, in aid of which the grant may have been sanctioned, has been executed in conformity with the plan and estimate previously approved by the Director of Public Instruction.

That in the event of any building, towards the erection, purchase, or enlargement of which a grant may have been made by Government, been subsequently diverted to other than educational purposes, the Government shall have the option of purchasing the building at a valuation to be determined by arbitrators, credit being given for the amount of the grant which may have been made by Government.

5th. That in each case, the arbitrators shall be three in number, of whom two shall be nominated by the Government and one by the Managers of the school.

56. Grants for the provision of school furniture will be made on condition that Managers of the school shall contribute an equal sum for the same purpose, and that in the event of the school being permanently closed within five years from the date on which the grant may have been made, the Government shall be at liberty to purchase the furniture, towards the supply of which the grant was given, at a valuation to be determined, as in the case of school buildings, by arbitrators, credit being taken in each case for the amount of the grant.

The object of this Institution is to afford to Sons of Christians in Madras and in the Madras a thoroughly liberal and Christian education. The generous bequest of the late Captain Doveyton, united with the funds formerly collected for a Protestant College, has enabled the Committee to make arrangements for the efficient carrying out of the object they profess.

It is intended ultimately to unite a complete Collegiate course of instruction in the schools already in operation; but at present it is thought advisable to confine the efforts of the Officers of the Institution to the schools alone. In the Primary School the instruction is elementary; in the High School, it is the attempt of the Masters to give a thorough Classical and Mathematical education equal in every respect to that given in the Public Schools in England.

The number of scholars at present on the roll of the Institution is 130 of whom 66 are in the High School, and 71 in the Primary School.

The following gentlemen are the educational Officers of the Institution:

For the benefit of parents residing in the Madras and others, a Boarding Establishment is maintained under the immediate supervision of the Principal, at the following rates:

Boarders 20 " "

When two or more sons of one parent are admitted, the terms are reduced to 10 and 20 rupees respectively.

These terms include School Fees and all charges, except Clothes, Books Stationery and Medicine.

All particulars may be obtained by application to the Principal, Doveyton House, Vepery.

The undersigned begs earnestly to bring to the notice of those who have hitherto supported the *Lawrence Asylum* by annual or monthly subscriptions, but have lately withdrawn their aid, that the Government have not yet assumed charge of the Institution as is generally supposed. It is probable that several months—perhaps nearly a year—will elapse before the final arrangements of Government can be formed. Meanwhile the Committee earnestly request aid for the efficient maintenance, and, if possible the speedy extension of the *Asylum*.

The Grant-in-aid given by Government barely suffices to pay the expenses of the Board, Teachers, &c. &c., of the 71 children maintained at the two Institutions—but it is wholly inadequate to enable the Committee to manage the accommodation.

Members of the 2nd Class, (except Regimental Officers belonging to Corps on the Garrison of Madrid, and other persons not permanently stationed or resident at the Presidency, who may become Members of either class without payment of entrance donation) pay an entrance Donation of Pesetas 20, and a Quarterly Subscription of Pesetas 25. This Society which has been established nearly quarter of a century owes its existence in great part to the exertions of Dr. Wright formerly a Surgeon in the Madras Army, and whose valuable contributions to Botanical Science have gained for him a widely spread and well earned celebrity.

The Company's Gardens are situated opposite to the chief entrance to the Cathedral; and, an additional piece of ground on the part of the Cathedral was purchased in the year 1859-67. This is at present chiefly occupied as a nursery for young plants, but it is hoped that ere long it will be converted, in great part, into an ornamental Garden having a Road lined in the centre, and concrete walks and roads for Pedestrians, Carriages and Equestrians. This portion of ground, however being at present little used, we shall notice chiefly the larger Garden which forms the greatest attraction at present.

This occupies a space of about 84 acres which were originally granted by the local Government, it is laid out in a highly ornamental manner and is much resorted to as a fashionable Promenade. It is open at all times to the Public and forms a beautiful place of recreation for the inhabitants of Madras. During the past year considerable alterations have been effected in it whereby its general appearance and condition have been much improved. Additional walks have been made, allowing free access to every part of it—the hedges have been thinned and trimmed; by this the apparent size of the Garden has been much increased and the removal of low brushwood and some of the unnecessary shelter of low spreading trees has tended to promote the free circulation of air. A large artificial Tank has also been made for the cultivation of Water flowers.

In this Garden may be seen plants of almost every country which seem worthy of cultivation as affecting ornamental flowers or being of economic value.

A nursery for seedlings and cuttings of useful and ornamental trees is being raised to meet the requirements of the Members who are supplied from it, gratis. European Vegetable and Flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

The general affairs of the Society are managed by the Committee who meet once in each month and who compile annually, in the month of July, a report of the year's proceedings which is submitted to a General Meeting of the Subscribers at large. Publicity is also given, to the Proceedings of each meeting of the Committee, in the Newspaper; and these records, during the past year, will be found upon examination, to afford much useful information upon several important points connected with Agriculture and Horticulture. These papers may also be found in a collected form in the Madras Journal of Literature and Science.

Persons of all nations are eligible as Members of the Society and have a vote in the annual election of the Committee and Office bearers.

The rules of Subscription are: If a quarter, or entrance fee being demanded and the Subscription being allowed to lapse temporarily, should a Member be absent from Madras for more than 3 months.

Up-country Subscribers are entitled to all these advantages of Members which it is possible to place at their disposal.

By the local permission of the Hon'ble the Governor, the Gardens Road stands at the Garden on every Tuesday Evening, when carts are arranged for the accommodation of Visitors; this being also done morning and evening on each week day.

The Society votes in the number of its Members, but now consists of about 90 Present Members, 15 Absent, 6 Honorary, and 3 Retiree Members.

An annual Show is proposed to be held about the middle of February 1902 when a large number of Plants will be awarded for ornamental Flowers of various kinds *Fruit Vegetables* and several Articles of importance in connection with Domestic Science.

List of the Plants to be thus distinguished and all information may be obtained on application from the Honorary Secretary (*Annexed Sheet*) or Mr Brown the Superintendent at the Gardens. By whose *List of Members Rules of the Society &c.* will be supplied gratis to any one anxious to peruse them.

This Institution was established in the year 1808, for the purpose of affording to old infirm and destitute Hindus assistance in food clothing and helping and medical attendance. Since that period it has entertained nearly 200 persons daily; and during the season which devastated the country in 1816 and 1818, it was the means of saving vast numbers from starvation and death. Throughout the course of the latter year no less than 20,000 individuals were on an average maintained every day. Wards were under every variety of form to have admitted; and the late contagious epidemics alone is sufficient to obtain immediate relief.

NEIGHERRY PUBLIC LIBRARY AND MUSEUM.

The Members of H. M. s. Services, and the Public generally, are invited to contribute towards a Public Library and Reading Room which has been established at Ootacamund, on the Neigherry Hills

The Managing Committee have no doubt that an Institution so greatly needed will be well supported by Residents and Visitors but the providing of a suitable building and of a stock of standard works, &c., involves an expense which it is not reasonable to expect should be entirely borne by those who now are, or at any one time may be, residing on the Hills

It is not merely for their own benefit, or that of the present residents on the Neigherry that the projectors of the Institution have set it on foot—few of these can ever hope to enjoy its full advantages: their object to supply an essential requisite at this most important Residency. For what is unquestionably a public undertaking, the Managing Committee ask for public aid. Contributions in money or books, will be received on account of Library, by

The object of this Fund is to afford relief to the Widows and Orphans of persons not in the Civilian Service of Government, and others, who have no similar institution to look to for making a provision for their families. It consists of two branches, namely a Widows' branch and a Children's branch. The benefits of the former are secured by the payment of a premium (equal to ten months' pension) as retirement money, and a monthly subscription depending upon the ages of the parties concerned, for which the widow will enjoy a pension equal to about six times the rate of subscription under certain restrictions. In the Children's branch, a monthly subscription, and a donation equal to one year's subscription, on account of each child, will secure a pension equal to five times the amount of that subscription until a specified age. The capital of the fund is about seven and a quarter lacs of Rupees, is vested in Government Securities, it has 256 Subscribers in its connection, and its present liabilities do not exceed 40,000 Rupees per annum, whilst its income is 84,000 Rupees per annum.

Several important changes have been lately made in the constitution of the Fund with the view of extending its benefits, among which may be mentioned the opening of two new grades, for pensions of 84 and 120 Rupees per annum, and the addition of a gratuity branch for conferring survivorship allowances not exceeding 600 Rupees.

The following statement exhibits the progress of the Fund from its establishment

No. 489 of 1890.—The Governor in Council directs the publication of the following Rules on the subject of Stamps, as applicable to Military Estates.

1. All parties who receive payments from the Administrator General, whether as Creditors, Legatees, or entitled in distribution, are bound to give Receipts with the proper Stamps, either impressed or affixed.

2. When money once comes into the custody of any Officer of Government, whether Administrator General, Military Secretary, Assistant General, or Sub-Treasurer, for the benefit of, or on account of, an Estate, it must be considered as in the custody of Government until the Administrator General pays it over to the party entitled, whether in distribution, or as Creditor or Legatee.

3. When money is transferred from one Officer of Government to another,—merely changing the custody, or rather the person or title whose such custody is, Stamp duty is not payable upon such transfers,—but in all cases where any ordinary Receiver or Administrator would be bound to give a Stamped Receipt, as for half yearly interest on Government Treasury Notes or the like, then the Administrator General is bound to give one also.

4. When the Administrator General makes payments, the person receiving the same must bear the expense of the necessary Stamp, when he receives payments, he must give a properly Stamped Receipt, charging the value of the Stamp to the Estate receiving such payment.

THE MADRAS LEASE COMMISSION was organized in the official year 1898-99. The main object of the Commission is to effect a satisfactory settlement of an enormous mass of property which has hitherto remained in a state of protraction and uncertainty. In due order out of confusion and thus to substitute settlement for ventura in the hands of a large and important portion of the population.

The object is proposed to be attained by an investigation into the exact and true of lessees conducted on the following principles.

First, possession of an lease for 50 years is to constitute valid title in the case of personal grants whether hereditary or conditional, in as much as allowed to the holders to convert their hereditary tenure into permanent feeholds upon reasonable terms, in recognition of the revolutionary rights of Government in the lease. These terms are the reasonable and permanent change of an annual quit rent of half of the full amount, in the case of lessees having been exempted in certain the family of job when there are only hereditary lease, and it is the intention is without heirs altogether. The relinquishment of the lease is compulsory on lessees; but the terms of compensation in their case, for the lease as then offered to the descendants of the original grantee.

Incans are further allowed to oblige themselves at any time, to give the quit rent then stipulated for, by the payment once for all of twenty times its amount.

Incans of more recent standing than 80 years are also recognised and admitted to a obligation. The terms of the engagements are the immediate imposition of a quit rent on the Incan equal to $\frac{1}{2}$ or $\frac{3}{4}$ of its full amount according to length of position and other circumstances attending the grant. The redemption of an Incan is totally disallowed except when it has been satisfactorily proved that the Incan was obtained through fraud.

Incans held for religious and charitable objects are confirmed for free, if old, and continued so long as the conditions of the grants are fulfilled.

On the validity of an Incan being established on the foregoing principles a Table Book is issued to the Incander specifying the terms of his future tenancy which it is sworn him and his successors, from any further service by Government regarding the origin of the Incan.

Incans held for Police service now no longer required are also confirmed at subject to a quit rent and according $\frac{1}{2}$ of the assessment according to the nature of the service of which the Incander are relieved. The quit rent as arising from the course is intended to meet the cost of the new Village Police.

This system of alienation based as it is on principles of liberality and justice is not only highly acceptable to the grant body of Incanders concerned, but has also been practically found most admirably adapted to accomplish the great object held in view. It at once realises all the interest which the Government must fairly possess in the Incan tenure while it secures to the Incander an inalienable right in his property which he never before possessed and which now enables him to transmit it without interference to his posterity.

The operations of the Commission were first commenced in the Guleran and Kailash Collectories comprising the late Districts of Kapha and Minal plains and Guleran, and the results obtained have been highly encouraging. The survey has since extended to the Districts of Nellore North Arcot Channai (Madras), and the Colet Districts of Kodaie Bellari and Karsal.

The number of claims decided by the Deputy Collectors from the same movement of the undertaking to the end of September 1880, is 68 181 each are of village service Incans recorded by them. The number of Incans already surveyed and confirmed by the Commissioner is 84,308, comprising an area of 4,26 871 Acres measurable at Rs 7 13 648 and already charged with a quit of 85,858. The permanent annual addition made to the revenues of Government in the shape of additional quit rent, is on round numbers about 80 000. The personal grants enfranchised from which the additional quit rent is mostly derivable bear an estimated value of 6 lacs of Rupees upon which the quit rent charged in lieu of the quit already paid is Rs 1 40,000 or 80 per cent. The personal grants confirmed on their present restricted tenure, owing to the unwillingness of the holders to enfranchise them, are only 800 or 1 per cent, a very small portion of the quit rent has been released owing to the general poverty of the Incanders and other causes.

In conclusion, the great object to be accomplished by the Commission may be briefly summed up in the following words—It is to suppress the practice of the Incander throughout the Presidency, to give security to landed property, to confirm and not to disturb titles, and to enhance the value of land which is thereby depressed by the conditions attached to its tenure.

For a more elaborate review of the scope, object, and operations of the Commission see the Preliminary Report of the Commissioner, dated 6th July 1880, the Report of the Commission of Government the Rules, &c., and the Additional Report of the Commission for the financial year 1880-81 may be referred to.
